League Must Go On, Declares Eden

Geneva Body Stated Needed Despite Its Failure In Ethiopia

Nations Face Task of "Stock-taking" at Geneva, Foreign Secretary Eden Tells British Commons in Answer to Sharp Labor Criticism of Government's Course

By GEORGE HAMBLETON
Canadian Press Staff Writer
London, May 6.—Rt. Hon. Anthony Eden, Foreign Secretary, told a crowded House of Commons today the League of Nations "must go on," but at the same time he said there must be a "stock-taking" by the League on the basis of the lessons learned in the failure of the League to halt the Italo-Ethiopian war.

Mr. Eden also told the House the government would consult the Dominions on "the problems involved" in Italy's conquest of Ethiopia.

Mr. Eden made no effort to conceal his disappointment over the failure of the League of Nations to end the Italo-Ethiopian war as he addressed the crowded House.

But he declared in firm tones: "The League of Nations must go on."

LABOR CRITICISM

For hours he had been the subject of a bitter attack by Hugh Dalton, who was Parliamentary Under-Secretary of State for Foreign Affairs in the last Labor government.

Encouraged by Labor cheers and frequently interrupted from the government benches, Mr. Dalton had gone all out in his attack. He declared the government, by not making clear to Premier Mussolini early in the dispute, that aggression would be met by League action, was itself responsible for the outbreak of war.

He charged the government with having failed to carry out its obligations under the covenant; with having encouraged the Ethiopians to resist in the belief the League would help them, and then having left the Ethiopians to their fate.

Mr. Dalton was particularly aggressive regarding the supply of British

ANNEXATION IS OPPOSED

France Against Italy Making Ethiopia Lowly Colony; League Membership Urged

Canadian Press
Paris, May 6.—Authoritative sources today said France would throw its full weight against outright annexation of Ethiopia as an Italian colony or raising of an army there which might be used in a European conflict.

France was reported likely to propose Great Britain's treaty with the Arab kingdom of Iraq be made a model for Italian domination of Ethiopia, with the African empire retaining nominal sovereignty and League of Nations membership.

TRADE RIGHTS

Under such a plan, France would insist it be accorded trade privileges

(Turn to Page 20, Col. 8)

ITALIANS MOP UP AT ADDIS ABABA

Ethiopian Rebel Group Uses Machine Guns, But Tanks Disperse Insurgents

Canadian Press from Havas
Addis Ababa, May 6.—Three Italian tanks and a force of Askaris were called into action here today when a group of Ethiopian rebels opened fire with several machine guns in front of the French legation. Several refugees were wounded.

The Askaris repulsed the attackers after several had been killed. Calm is slowly being restored to the stricken city. During last night, however, sporadic outbreaks were encountered as the "mopping up" campaign continued.

Fillagers made sporadic attacks on several of the legations but were driven off.

Business Gains Are Seen By C.P.R. Head

Canadian Press
Montreal, May 6.—The people of Canada, Sir Edward Beatty told shareholders of the Canadian Pacific Railway Company in his presidential address at the annual meeting today, "are awakening to the fact transportation requirements of the country need not continue their present drain on the public purse if a sound solution is adopted."

Sir Edward outlined difficulties

"All Aboard For Ludgate Circus"

Like a voice from the past was the famous old bus from London that arrived in Victoria yesterday morning aboard the Furness motorship Pacific Enterprise, en route to Vancouver, to take part in the forthcoming Jubilee celebrations. This bus was one of the first of its type ever used in London and was sent over to France during the war to help in the movements of British troops. A number of old-timer Londoners called to pay their respects to the brother of "Old Bill." The picture shows Chief Officer Frank Perry at the wheel, with Archie Byatt of the local Post Office staff sitting next to him. On the top deck are First Mate Reginald Jenney, Mrs. Byatt and Mrs. G. Storey Waller.

Halibut Weighed 600 Pounds Each

Indian, With Hand Line and Home-made Hook, Landed Two Big Fish.

Twelve hundred pounds of halibut in two catches!

And on a hand line with a home-made hook. It sounds rather unbelievable.

Colonel A. W. R. Wilby, local agent for the Department of Marine, this morning received a letter from W. Hunt, keeper of the lighthouse at Scarlett Point, near Port Hardy, telling of these amazing catches.

An Indian, Mr. Hunt related, recently called on a man named Scholberg, who keeps a fish-buying station at Cascade Harbor. He had a 600-pound halibut.

A few days later the same Indian returned to Cascade with another 600-pounder.

Both fish were caught on the south side of the Millar group of islands, off the east coast of Vancouver Island in about seventy-five fathoms of water.

This is believed to be a record in size for halibut on this Coast. Certainly it is a record for a lone fisherman with a hand line and a home-made hook.

The kind of boat from which the Indian fished and the struggle he must have had in landing his gigantic catches were not mentioned.

City May Secure \$140,000 In Relief Loan For Budget

Disappearance Case Reopened

Toronto Police Investigate 17-year-old Mystery of Ambrose Small

Canadian Press
Toronto, May 6.—A new investigation pertaining to the mysterious disappearance of Ambrose J. Small seventeen years ago was under way today by police at the instigation of Attorney-General Arthur Roebuck. Renewal of active police work followed the filing of affidavits by Paul Hinds yesterday purporting to shed new light on the disappearance of the millionaire theatre owner. The affidavits were in support of a motion asking an injunction against the estate of the late Mrs. Ambrose Small restraining distribution of the estate's assets. The motion will be argued tomorrow.

Strong Delegation Urges Government Aid To Prevent Sharp Tax Increase In Victoria; Hart Declares Effort Being Made To Finance Relief Costs, But Cannot Assure Any Other Help For This Year's Budget

Fighting to bridge a gap of \$305,000 in the Victoria budget and prevent a sharp increase in the tax rate, members of the civic finance committee, the Victoria representatives in the Legislature, and some thirty of the city's leading taxpayers, this morning discussed the city's financial problem with Hon. John Hart, Minister of Finance, and Hon. A. Wells Gray, Minister of Municipal Affairs. Out of the two-hour conference, two definite assurances were given. That the matter of giving a loan to the city to meet its relief costs is

VICTORIA STUDENTS SET HIGH STANDARD IN FINAL TESTS PASS LISTS SHOW

VICTORIANS WIN AWARDS

Several Scholarships and Prizes Won By Local Students at U.B.C.

Vancouver, May 6.—Victoria students gained a good share of scholarships and special prizes as the result of final examinations in various courses at the University of British Columbia last month, the pass lists released today by the senate of the university showed.

Among the Victorians who gained outstanding laurels were William Leonard Grant, Howard Oldford McMahon, Max Maynard, Victor Apollo, Zandvoroff, Deborah Aish, Estelle Christine Matheson, Linda Smith and Robinson, Mitchell Porter. James Leeder Colbert and John Black Armstrong of Victoria College received Khaki University and Y.M.C.A. Memorial Fund bursaries.

TWENTY-SIX GRADUATE

The names of 300 students successful in recent graduation examinations were announced by the senate. The list includes twenty-six candidates—three from Victoria—who will receive their Master of Arts degrees at the twenty-first annual convocation in the campus gymnasium tomorrow.

Heading the list of recipients of medals, scholarships, prizes and bursaries for the 1935-1936 year is Morris Bloom of Vancouver, who was awarded the Governor-General's medal.

Lumber Strike Not Widespread

Cowichan Lake Camps Out; Labor Minister Gives Views

With the Cowichan Lake area on Vancouver Island most affected, some 1,300 loggers and sawmill workers on the B.C. coast were out on strike today in an effort by the new Lumber and Sawmill Workers' Industrial Union to force recognition from the operators.

The strike started Monday, and after review of the situation this morning, Hon. George A. Pearson, provincial minister of labor, said he did not think there was any danger of a general strike in the industry. Estimates of the number of men employed in lumbering in the province run from 20,000 to 40,000 so that the number on strike was not a large percentage.

All camps in the Cowichan Lake area are out today, involving close to 1,000 men it was reported. On the mainland the shingle weavers union reported thirteen mills affected.

In the Quintano area men who had voted to go on strike reversed their decision yesterday, apparently satisfied with wage increases recently granted, it was reported.

AMY MOLLISON SPEEDS PLANE

Canadian Press from Havas
Mosamedes, Portuguese West Africa May 6.—Mrs. Amy Mollison, British filer who is attempting to break the London-Cape Town speed record, arrived here at 7 o'clock (8 a.m., P.S.T.) tonight.

END OF PRIVATE ARMS FIRMS URGED

Canadian Press from Havas
London, May 6.—A strong plea for government monopoly of the manufacture of arms was made here today by Rt. Hon. David Lloyd George, veteran former Liberal leader. Testifying before the arms inquiry commission, Mr. Lloyd George declared such a monopoly would avoid "the creation of powerful vested interests whose prosperity depends on war."

Phyllis L. Cowan, With 90 Per Cent, and Thomas P. Pepper, With 87.6, Top Second and First-year Classes at Local Institution; Winners of Scholarships and Special Prizes Announced

Phyllis L. Cowan, with an average of 90 per cent, and Thomas P. Pepper, with 87.6 per cent, led second and first-year candidates in the annual final examinations at Victoria College in April, results released today by the Senate of the University of British Columbia showed.

HEAD CLASSES AT VICTORIA COLLEGE

Photo by Savanna.
PHYLLIS L. COWAN

THOMAS P. PEPPER

Students generally maintained a particularly high standard this year. Six sophomores secured first-class honours in the general pass list, while similar rankings were gained by nine of the first-year class. To secure first-class honors the student must maintain an average of 80 per cent or better.

The results were released today with the following statement by the senate:

"We are informed by the faculty of the college that the work of both first and second-year students has been well up to standard."

SEPTEMBER EXAMINATIONS

"Students who on account of illness have had their examinations deferred, and students who have been granted supplemental examinations, will be given the opportunity to remove deficiencies in their work in September. Students who wish to enter applied science at the university, have passed in the work of the first year in arts and science, but have not obtained the 50 per cent demanded in certain subjects for entry into applied science, will also have the opportunity to improve their standing by taking the September supplemental."

SCHOLARSHIPS AND PRIZES

Scholarships and prizes have been awarded as follows:

Royal Institution and Frank Eaton Memorial Scholarship of \$50, awarded to the student taking the highest standing in the English of the second year—Won by MARGARETTA G. RICE.

Agnes Deans Cameron Scholarship of \$50, donated by Mrs. F. V. Longstaff, and awarded to the student obtaining the highest standing in the English of the first year, and continuing the course in the second year at Victoria College—Won by THOMAS P. PEPPER.

Alliance Francaise Prize of \$50, awarded to the student who has made the most progress in the French of the second year and who intends to continue university work in this subject—Won by PHYLLIS L. COWAN.

(Turn to Page 16, Col. 1)

BAN ON TINY NEW PLANES IS URGED

London, May 6 (Associated Press)—A ban against sale and operation in England of tiny planes known as "sky fleas" was urged by the Air League today. Lieut. Cowell, retired Royal Air Force officer, was killed in one when it crashed Monday.

BUDGET DEBATE MAY LAST WEEK

ROOSEVELT MAY VISIT OTTAWA

Ottawa, May 6 (Canadian Press)—Premier King told the House of Commons this afternoon he hoped President Roosevelt would visit Ottawa this summer.

WHEAT VOTE IS TO BE \$16,031,028

Canadian Press
Ottawa, May 6.—Supplemental estimates to cover the costs of taking over by the Canadian Wheat Board the holdings of the Canadian Co-operative Wheat Producers Limited, totaling \$16,031,028, were brought down in the House of Commons this afternoon by Hon. C. A. Dunning, Minister of Finance.

Following Bennett's Speech, Social Crediters in Commons Join Discussion and Date of Vote Is Delayed

Ottawa, May 6.—The budget debate was the business of the Commons as the members assembled this afternoon.

Mr. Bennett, Conservative leader, who opened the debate yesterday afternoon, spoke for two and a half hours. He was followed by several speakers, including J. S. Woodsworth, C.C.F. leader, and as Liberals stayed out of the discussion it looked as if a vote might be taken in the evening. The Social Crediters, however, took the floor, extolling their theories of a national dividend and public control of credit. As a result it was said today the debate might last a week, with the Liberals swinging into it.

During his lengthy speech Mr. Bennett voiced belief the economic fabric of Canada would rip apart under an 8 per cent sales tax.

(Continued from Page 1)

now under government consideration and will be discussed by Mr. Hart with Premier Pattullo when the Premier returns from Ottawa. This would remove some \$130,000 of \$140,000 from the city budget's current costs. 2. Any assistance which may be given municipalities at the fall session of the Legislature cannot apply on the 1936 budget, and will therefore be of no advantage in bridging the present emergency.

This, in effect, was the Finance Minister's answer to a proposal by the taxpayers that the city should balance its budget by anticipating a grant of \$305,000 from the government.

There was also discussion on the suggestion previously advanced by Mr. Gray that the city should refund its debt, but Alderman F. R. Brown, finance committee chairman, argued that since the city's average interest rate was 4.75 per cent and the government's average rate 4.60 per cent, the government should be the first to seek compromise with its bondholders.

MAYOR'S VIEW

Mayor Leeming stressing the urgent need of provincial assistance for the city, put the case in a new light.

From 1926 to 1930 the average yearly levy of taxes in Victoria was \$1,500,130, he said.

From 1930 to 1935 the average had increased to \$1,730,847, or an increased burden per year of some \$140,000.

JAPAN WATCHES SOVIET TROOPS

Nippon Cannot Remain Indifferent to Concentration in Far East, Says Hachiro Arita, New Foreign Minister

Associated Press
Tokio, May 6.—Japan "in her solicitude for peace in East Asia cannot remain indifferent" to large Soviet troop concentrations in the Far East, Hachiro Arita, new Foreign Minister, told the Japanese Diet today.

Japanese-Soviet relations, he added, "cannot be said to be altogether felicitous. The fact the Soviet maintains excessive armaments in remote outposts of the Far East constitutes a real menace to peace in this part of the world."

DESIRE FOR PEACE

Arita, however, stressed Tokyo's desire for "normal and peaceful relations" with the Soviet and declared he would devote his "best efforts to furtherance of Japanese-American amity and understanding."

Arita paid tribute to the late King George of Great Britain and said adjustment of British and Japanese interests should not "prove too difficult."

Turning to China, the Foreign Minister said it was essential that "Chinese authorities should take a truly broad view of the situation in East Asia and enter on it with firm resolve. It is very unfortunate that apparently China as yet has not come to a full decision."

Italians Mop Up At Addis Ababa

(Continued from Page 1)

In Fascist salutes, and Italy owned Ethiopia capital by right of conquest today.

Marshal Pietro Badoglio, who yesterday headed Rome's victorious Fascist legions into Italy's war goal, installed himself in the former Italian legation.

"We made it," the marshal said proudly.

"The war over?" this correspondent asked him.

"There is no enemy, therefore this must be the end," the commander-in-chief replied.

RAIDERS HIDE RIFLES

The Ethiopians who had terrorized foreigners and their compatriots alike hid their rifles in the first accessible spot and appeared waving white flags and cheering the conquerors.

Both native and foreign populations greeted the Italian occupation with cheer, welcoming a feeling of security after four days of the wildest kind of experiences.

GOVERNOR NAMED

Rome, May 6.—Marshal Pietro Badoglio, establishing Italian rule over Addis Ababa, named Giuseppe Bottai, former Governor of Rome, as civil governor of the former imperial Ethiopian capital today.

Roman Fascists accepted this action as a carrying out of Premier Mussolini's policy after the occupation of Addis Ababa yesterday, that "Ethiopia is Italian."

Italy's undeclared war on Ethiopia resolved into an unopposed peace today and Premier Mussolini immediately enforced a campaign to defend the fruits of the African conquest against the world.

BOISTEROUS CELEBRATION

Intoxicated by the occupation of Addis Ababa and the declaration "Ethiopia is Italian," the nation carried its exultation into the second day, but Mussolini ruled domestic business must carry on, to combat the continuing League of Nations sanctions.

Echoing Mussolini's proclamation during the national mobilization yesterday evening, "We are ready to defend our victory with the same intrepid, irrevocable decision with which we achieved it," crowds shouted "Heil, General."

A tentative programme for transformation of Ethiopia into an Italian possession was already formulated.

NOW CALLED EMPEROR

"Emperor! Emperor!" twenty thousand jubilant students shouted over and over again to King Victor Emmanuel this morning at the Quirinal Palace.

The students went there in a triumphal march after acclaiming Premier Mussolini at the Venezia Palace. He Duca appeared on the balcony of his office and cried, "Viva Italia."

The shouts recalled frequent rumors Victor Emmanuel eventually would be named Emperor of Ethiopia.

TROOPS AS POLICE

Civil organizers said the last African kingdom to be conquered probably would become an Italian colony like Libya, Eritrea and Somaliland, governed by civil commissioners and military commanders and policed by Italian-controlled native troops.

The tentative plans called for predominant Italian commercial and economic influence in Ethiopia, with the possibility of an "open door" policy after depending on the attitude of Britain, France and other nations toward the Fascist conquest.

A somber note crept into the demonstrations with government posters declaring: "We will remember November 18."

This was the date of imposition of economic sanctions, boycotting Italian goods and placing an embargo on shipments of key products to Italy as punishment for the adjudged Fascist aggression of East Africa.

With Fascists proclaiming the structure of Haile Selassie's former

Lumber Strike Not Widespread

(Continued from Page 1)

The Provincial Government up to today had taken no part in the dispute, although the labor department was watching developments closely.

The Vancouver and District Trades and Labor Council after endorsing the strike announced Attorney-General Sloan would be asked to review the difficulties between the parties.

The attorney-general said he had not been informed of this.

Mr. Pearson meanwhile received reports from the labor department indicating the strike was not widespread.

ORGANIZING BY STRIKE

"Apparently," he said, "this dispute is an effort by certain elements to organize a labor union within the logging industry. But the question has arisen whether this group has the right to speak for the men as a whole, because, as I understand it, the group has a membership of some 1,200 out of a total of 20,000 employed in the industry."

The quarrel is as to recognition by the operators of this group which is trying to speak for the men. There is an attempt made to force recognition by calling a strike, but a strike would not necessarily mean a test of the men's views about the union. In these days men may be forced to strike not because they do not want to be called scabs or have to face picket lines.

"It seems to me a strike is an unsatisfactory way of approaching the question of unionization."

"Right now a strike would be a severe setback to the lumbering industry, especially when things are improving and there is a tendency toward industrial peace. As a matter of fact, at no time since I came into office has there been such a marked tendency on the part of operators toward improving the wages and working conditions of their men without being forced."

NEGOTIATIONS NOT REVEALED

Negotiations to settle the logging strike, if they were under way, were carefully guarded today. Employers' representatives denied any negotiations were being carried on, while union heads said conferences between workers and operators were proceeding in certain mills throughout the province.

Police stood by at the Hunting-Meritt Lumber Company today as workers filed into the plant, but pickets did not interfere. Manager H. V. Whitall asked for police protection last night when union officials announced the factory would be picketed.

LABOR COUNCIL ACTION

Vancouver, May 6.—The Vancouver and District Trades and Labor Council last night endorsed the efforts of the Lumber and Sawmill Workers' Union, which yesterday called a general strike and strongly deprecated the attitude of employers in refusing to recognize the union.

After hearing a delegate from the Shingle Weavers Union to the effect that thirteen mills in his organization had been affected so far by the strike, the council unanimously decided to lay the situation before Attorney-General Gordon Sloan.

Percy Bengough, secretary of the Trades and Labor Council, reported having written to the British Columbia Loggers' Association some time ago suggesting that it should be possible to bring about a better understanding between employers and organized employees in the logging industries.

R. V. Stuart, secretary of the Loggers' Association, had replied, however, that his body was a trade organization and the suggestion was outside his scope.

SOME OUT IN U.S.

Seattle, May 6.—An estimated 3,000 lumber mill men and loggers, were on strike in Washington, Oregon and British Columbia today, seeking to force union recognition and higher wages.

ZEPPELIN ON FLIGHT TO U.S.

(Continued from Page 1)

The passenger list includes Sir Hubert Wilkins, the explorer, and Lady Wilkins; Rev. Father Schulte, a Roman Catholic priest who obtained special permission from the Pope to hold mass daily aboard the airship; Ministerial Director Karl Ritter of the German Foreign Office; William E. Leeds, Lieutenant-Commander in the U.S. Naval Reserve, and Lord Mayor Fritz Krebs of Frankfurt-on-Main.

Although Dr. Hugo Eckener, famous Zeppelin designer and commander, was scheduled to be aboard the Hindenburg as on its recent maiden voyage to South America, it was stated the ship again would be under the control of Capt. Ernst A. Lehmann.

LEAGUE MUST GO ON DECLARES EDEN

(Continued from Page 1)

oil to the Italians. By the supply of that oil the government had profited through its shareholdings in the Anglo-Italian Oil Company, he said. Through the use of that oil, the Italians had been able to employ mustard gas.

SHARP REPLY

Mr. Eden denied the charges with a sharp reply.

He declared Mr. Dalton had grossly misstated the chronicle of events. He asserted that all through the early days the British government had striven to effect conciliation. It was not true Britain had let the League down.

There were only three great powers in the League. Of these only two—Britain and France—were Mediterranean powers. Therefore on them must have fallen the major responsibility and the major risk. There could be no question that Britain had taken the lead at Geneva. It was only necessary to read the Italian papers to see that.

Before the dispute the percentage of oil supplied to Italy by British companies was only about 18 per cent of the total Italy received. Mr. Eden thought that last year it was 4 per cent. Had that supply been stopped what effect could it have had on the course of the dispute? he asked.

IN SANCTIONS FIELD

From the outset Britain had taken the view that action must be collective. The sanctions adopted were for military sanctions and war. For as a deliberate purpose they were on commodities under control of the League countries. Their weakness was that they could not immediately be effective.

The only sanction that could be immediately effective was to close the Suez Canal.

"That," Mr. Eden continued, "must inevitably have entailed military sanctions, and military sanctions in my judgment would inevitably lead to war."

Did the opposition favor closing the Suez Canal or not? Mr. Eden demanded. Were they ready for military sanctions and war? For was their support of the League to be only threats, insults and perorations?

FUTURE OF LEAGUE

Mr. Eden then came to the future of the League itself.

"It is not to admit the failure of the League," he said, "we have got to admit our own disappointment. I believe my disappointment is as great as that of the honorable member (Dalton). But if success is collective, then failure is also collective."

"A blow has been struck at the structure of the League and at collective security. We must not be afraid to learn the lesson of that experience. We must decide our course in the light of that event."

"We must tell the world what we will do and what we will not do. There is nothing more dangerous than a foreign policy of unrealities."

For the moment Mr. Eden was interrupted here by a outburst of applause from the government benches and ironic cheers from the League benches.

LEAGUE NEEDED

"It is clear the League must go on. The League is absolutely essential to the organization of international peace. That is clear. There is something less clear. There must also be a stock-taking, and that stock-taking must, in the view of the government, be undertaken by the League. It must not be done hurriedly."

"Each member of the League must carefully consider for itself the lessons to be drawn from the last seven months. We propose to engage at once in consideration of the problems involved and to that purpose we shall enter into consultation with the Dominions."

WENT FULL LENGTH

Britain had gone the full length the League was prepared collectively to go, continued the Foreign Secretary.

Purchases may be arranged on our convenient Budget Plan.

BUSINESS GAINS ARE SEEN BY C.P.R. HEAD

(Continued from Page 1)

that, with general improvement in business conditions which now seems to be under way, and with a betterment in western agricultural conditions, a resumption of dividends at least in respect of the preference shares will be possible in the near future. It will be the policy of directors to re-establish a dividend on such stock in whole or in part at the earliest possible date consistent with prudent administration."

EARNINGS INCREASE

Results of the first quarter of 1936, the president recalled, showed an increase of \$2,800,000 or 10.2 per cent in gross earnings and an increase of \$726,000 or 8.4 per cent in net earnings. Freight earnings showed an increase of 12 per cent and passenger earnings an increase of 8 per cent.

Expenses for the first quarter of 1936 increased \$2,100,000, approximately one-third resulting from increased volume of traffic. The remainder was due to increased maintenance expenses and the fact that in the corresponding period of 1935 the deductions from basic rates of pay were 12 per cent whereas this year they were 10 per cent. This difference, said Sir Edward, would stop with the April accounts.

REPAYMENT OF LOAN

The company's ability to meet its obligations "entirely without cost to the Dominion, and to release the government from its contingent liability of \$200,000 which the government had guaranteed in June, 1933," was considered by Sir Edward as "a matter of justifiable pride."

TO MEET RATES

Downward trends in the importance of passenger revenues to gross earnings had continued, said the president. It would no doubt be necessary for Canadian railways to meet competitive rates established by United States carriers. The first step in this policy was being taken on June 1 next when experimental rates at lower levels would be put into effect.

AIR-CONDITIONING

"In order to complete the work of air-conditioning sleeping, parlor and observation cars for use in transcontinental and international service in time for the summer traffic," said Sir Edward, "it has been necessary to work the Angus passenger shop for the full time permitted by the delivery of material. Your company's programme for the current year calls for the equipment of 129 cars of the classes referred to."

UNIFICATION PROPOSAL

Answering criticism of "the plan for unified management of the two major railway systems which I have advocated," Sir Edward said:

"The elimination of competition on rails would enable the railways to follow a sound policy in respect of co-ordination with other forms of transportation and thereby increase the volume of railway traffic. This was the experience of the railways in Great Britain, where the adoption of a unification programme enabled them to co-operate their services with highway transportation in such a manner as to bring about a material increase in railway traffic with resultant benefit to the railway companies, their patrons and employees."

OFFICERS ELECTED

Montreal, May 6.—The following directors of the Canadian Pacific Railway Company were re-elected at the annual meeting of shareholders here today: D. C. Coleman, John W. Hobbs, R. S. McLaughlin, Sir Edward Peacock and W. N. Tilley, K.C.

AT THE MEETING OF DIRECTORS FOLLOWING THE ANNUAL MEETING OF SHAREHOLDERS, Sir Edward Peacock was re-elected chairman and president; D. C. Coleman, vice-president, and Sir Edward Peacock, D. C. Coleman, Sir Herbert B. Holt, W. N. Tilley, K.C., Sir Charles Gordon and Ross H. McInnes, members of the executive committee for the ensuing year.

Red Cross Head Slain By Looter

Canadian Press from Hava

London, May 6.—Dr. A. J. Melly, chief of the ambulance corps of the British Red Cross unit in Ethiopia, died in Addis Ababa today from wounds received during rescue work last Saturday's rioting.

His gallant attempt to succor a wounded Ethiopian during an exchange of shots on the principal street of the capital caused Dr. Melly's death. Driving by in an automobile, he stopped to pick up the wounded man, and while doing so was shot in the chest by another native.

He was taken to the British legation, but failed to respond to medical treatment.

A sister survives him at Calgary, where he visited occasionally.

SELASSIE STILL ABOARD CRUISER

Associated Press

Jerusalem, May 6.—Emperor Haile Selassie will arrive in Haifa on the British cruiser Enterprise late this week.

SS. NORMANDIE IS VOYAGING

Le Havre, France, May 6.—The Normandie sailed today on its first transatlantic voyage of the year. The liner carried 500 first-class passengers and 150 tourists.

Mr. Bennett declared the government had discriminated against Alberta in turning down its application for a loan after its loan council scheme had been rejected. Mr. Bennett declared, it was unfair to submit one scheme to all provinces and then, when it was rejected by Alberta, leading to a bond default, modify its terms.

On the general topic of conversion, the Conservative leader gave his opinion a general scheme, involving the Dominion, provinces, municipalities and railways, would be impossible until there were real signs of recovery.

He suggested that to clothe the

Deficit of C.N.R. Explained to M.P.'s

TO STUDY MINE BEFORE WORK

Proposed Operations at Moose River, N.S., Must Be Approved By Government

Canadian Press
Halifax, May 6.—Before the Moose River Gold Mine may be worked again, Manager D. F. Henderson must submit his plans to the Nova Scotia Mines Department in a formal application, according to Deputy Minister of Mines Norman MacKenzie. Earlier Henderson had said that "as far as I am concerned I shall continue operations unless the Mines Department steps in and stops me."

A slope in the mine collapsed Easter Sunday night, imprisoning Dr. D. E. Robertson and Alfred Scadding for ten days. The third member of the Toronto party, Herman Magill, died before rescuers reached them. Dr. Robertson, almost completely recovered from his harrowing experience, left for Toronto today. Scadding is still in a hospital here, victim of trench feet, but he is showing daily improvement.

MANY JOIN IN MUSIC TESTS

Vancouver Festival Starts With Record List of Contestants

Canadian Press
Vancouver, May 6.—With more than 10,000 contestants entered, the fourteenth annual British Columbia Musical Competition Festival was in progress here today.

Programmes will continue until Saturday night, May 16, music judges from Great Britain being Harold Samuel, Arthur Cranmer and D. T. Yacumini. In charge of elocution and dancing are Florence Leslie Jones of Toronto and Lena Cotsworth Clarke of Vancouver.

Juvenile classes, in piano and singing along touch a new high record for entries. The opening programmes yesterday were devoted to singing demonstrations by day school choruses, and preliminary competitions for piano under thirteen years; girls' solo, high voice, over twelve, and contralto solo "A" class; judges being Messrs. Yacumini, Cranmer and Samuel, who received an enthusiastic reception when they took their places before the anxious young performers.

A recital was held in the auditorium yesterday evening with Adjudicator Harold Samuel, noted British pianist, as the featured artist at the piano, and Arthur Cranmer, bass soloist of the historic Three Choirs Festival, as his vocal colleague. An enthusiastic audience greeted the distinguished visitors. Mr. Samuel, though noted as an outstanding exponent of Beethoven, was careful not to add weight to his programme by the choice of more than one excerpt from his great master. It was the chromatic fantasy and fugue.

DEATH SENTENCE FOR QUEBEC MAN

Sherbrooke, Que., May 6 (Canadian Press).—Kenneth Brown of Milton, Ont., was convicted by a King's court jury yesterday of the murder of William Keith Baldwin, April 18, 1935.

Mr. Justice Hector Verret sentenced the man to be hanged Friday, July 10. Brown displayed no emotion as the foreman, Eugene Flynn, said "guilty." "You have been found guilty of one of the most atrocious crimes in the history of this district," said the judge before pronouncing sentence. Mr. Baldwin, former Liberal member of Parliament for Stanstead, was found gagged and unconscious in his general store at Baldwin's Mills April 18, 1935, after the crown charged, Brown had beaten and robbed the storekeeper.

WAGE INCREASES BENEFIT 20,000

Associated Press
Akron, O., May 6.—The Goodyear Tire & Rubber Company and the General Tire & Rubber Company yesterday announced a 5 to 10 per cent pay increase. Officials said 18,000 would benefit at Goodyear and 2,000 at General. The Firestone Tire & Rubber Company yesterday announced similar wage increases for its 10,000 factory workers and the P. P. Goodrich Company said its 11,000 plant employees also had been given raises, but declined to estimate percentages.

New Westminster May Have Fair

New Westminster, May 5.—The New Westminster city council has endorsed an application to the registrar of companies at Victoria to restore registration of the Royal Agricultural and Industrial Society of British Columbia. That society conducted the annual provincial exhibition here for fifty years until the Queen's Park buildings were destroyed by fire in 1929. Renewal of the charter is believed to indicate the provincial exhibition may be resumed in the near future.

Chairman of Trustees Tells Commons Committee \$47,000,000 Fair Estimate For 1935, Not \$115,000,000 as Bennett Claimed

Canadian Press
Ottawa, May 6.—The complicated question of Canadian National Railways financing was examined yesterday evening by the special committee of the Commons on railways and shipping with special reference to the statement made in the Commons earlier in the day by Rt. Hon. R. B. Bennett, opposition leader, that the real deficit for 1935 was \$115,000,000 instead of \$47,000,000 as shown.

C. B. Howard, Liberal, Sherbrooke, Que., said that statement had been a shock to him and he asked railway officials to explain it.

Hon. C. P. Fullerton, chairman of the Canadian National board of trustees, said \$47,000,000 was a fair estimate of the cash deficit.

Mr. Bennett, he said, had included a lot of things that should not have been included. He had included, for instance, 6 per cent on government loans due over a long period of years, including the Canadian Northern and other "lame ducks" that had never been intended to pay, also retirement of equipment which was obsolete and should have been spread over a number of years.

Mr. Fullerton said \$47,000,000 was the cash deficit and the other sums mentioned were bookkeeping items. Some people, he said, liked to pile up deficits to make the picture as bad as possible. That was why he had sought to get a recapitalization to cut out all deadwood.

SPREAD EXAMINED
Thomas Vlen, Liberal, Montreal-Outremont, questioned the witnesses as to the spread between the operating revenue of the Canadian National and the Canadian Pacific.

S. W. Fairweather, Canadian National economist, said the operating ratio was the relation of expenses to revenue and in this the two railways differed. The Canadian National included the revenue from express and telegraphs and the Canadian Pacific did not.

It was also necessary to remember, Mr. Fairweather said, that the Canadian Pacific had a greater density of traffic and a greater revenue per mile of line. Also the Canadian National had managerial problems that did not exist in the Canadian Pacific.

The Canadian Pacific was built and operated as a unit while the Canadian National came into being with obligations to maintain and operate redundant facilities. It had more shops and facilities than were needed and had to keep them in operation. There were two shops in Winnipeg, for instance, that had to be kept in operation. They were tied up with agreements.

Man Ends Life At Prince George

Canadian Press
Prince George, B.C., May 6.—Police yesterday reported Thomas White, sixty-year-old prospector, committed suicide here last Saturday evening by shooting himself through the chest with a rifle.

White's eighty-eight-year-old mother, with whom he lived, told officers her son said he intended to shoot himself. He then went into a back room of the house, she said, and returned with a rifle.

While her back was turned she heard a shot and White dropped dead on the bed.

White was born in Lockton, Wis. He was a veteran of the Spanish-American War and received a pension from the United States Government.

ROOSEVELT LAUGHS OFF EXECUTIVE CARES

Face wreathed in a grin of amusement and chuckling audibly, President Roosevelt in this picture, made during his New York jaunt, looks vigorous and unscathed by the strain of presidential duties. The "big smile" was brought forth by some remark his son, John, made.

More Arrests In Swindle Expected

Canadian Press
New York, May 6.—Postal inspectors said today they expected additional arrests shortly in connection with an alleged \$3,000,000 swindle on the Montreal Postgraduate Hospital Sweepstakes.

KING'S SALARY VOTED BY M.P.'S

British Commons Approves \$2,035,000 Annually For Royal Expenses

Canadian Press
London, May 6.—Over-ruling Labor Party objections to what was characterized as "lavish expenditure," the House of Commons yesterday evening voted \$2,035,000 (\$2,035,000) annually for the King's civil list.

Five divisions were necessary to pass the measure providing for the upkeep of the royal family and the royal household. First, a Labor motion to reduce the amount by £1,000 was rejected by 238 votes to 102. Independent Labor motions to omit provision for the Duke of York and for the contingency of the King's marriage and for any children of such marriage, were defeated 261 to 22 and 278 to 17, respectively.

The civil list resolution was then carried 284 to 17, the Independent Labor Party having challenged for a division. A second resolution dealing with the Duchy of Cornwall was carried 291 to 9, while a third resolution dealing with amendment to the law was agreed to without division.

Criticizing the measure, Sir Stafford Cripps, Labor, declared large sums had to be devoted to the civil list owing to the standards of luxury and "the standards of the traditional demands of aristocratic society."

Jack McGovern, Independent Labor member from the Clyde-side, said the crown was "a purely decorative job and a symbol of exploitation and robbery."

Wider Trade Fields Scanned

Increase Within and Outside Empire Possible, Says Hon. V. Massey

Canadian Press
London, May 6.—Increased trade within the British Commonwealth of Nations is not incompatible with the promotion of trade on a wider basis and "an effort to bring about the return of commercial sanity to a tariff-ridden world," declared Hon. Vincent Massey, Canadian High Commissioner to Great Britain, in a speech at a dinner of the London Chamber of Commerce yesterday evening.

Responding to the toast "Intra-Imperial Trade" proposed by Hon. Earl Page, Deputy Prime Minister of Australia, Mr. Massey said the component parts of the empire could agree that intra-imperial trade was a good thing. They wanted more of it, and how could they get it?

If questions of tariffs and preferences could be approached with imagination and reasonable knowledge of one another's difficulties, the High Commissioner said, the reciprocal commerce could be promoted on a mutually satisfactory basis, which was the only one that could give their arrangements some reasonable hope of continuity.

Italians Execute Five Ethiopians

Canadian Press from Havas
Asmara, Eritrea, May 6.—Five Ethiopians were executed here after being convicted by a military tribunal of participation in the massacre of an Italian road building crew on the northern front in February. After killing the small detachment of troops on guard, the tribesmen tortured and killed all fifty-seven of the workers. It was charged. One woman, Signora Lidia Rocca, was killed with her husband, the engineer in charge of the road crew.

One Dead, Seventeen Hurt in Bus Crash

Associated Press
Carthage, N.C., May 6.—Earl Callaway, ten, was killed and seventeen other schoolchildren were hurt yesterday when a Moore County school bus was wrecked on the High Falls-Carthage Road six miles from here. Roy Callaway, the driver, lost control as the vehicle was going downhill, and it sidetracked a tree.

Soon to Enlarge Vancouver School

Canadian Press
Vancouver, May 6.—Tenders will be called next week for construction of an eight-room addition to the Lord Byng High School here. H. N. MacCorkindale, superintendent of schools, announced yesterday following a meeting of the city council and school board.

Fine Home For Stray Animals

Dogs and Cats Will Occupy \$100,000 "Hotel de Luxe" in Chicago

Canadian Press
Chicago, May 6.—Flagstone paving in the sunken garden was started yesterday as the last step toward completion of the Anti-Cruelty Society's \$100,000 "hotel de luxe" for stray cats and dogs.

Around the luxurious exercise yard workmen are erecting an eight-foot stone wall to guard hoboes of the animal world from the prying eyes of human beings.

The hotel, a three-story affair, was made possible by a bequest of the late Marion E. McConnell. On the first floor is the kitchen, with electric refrigerator and pastel tinted walls; the dogs' bathroom, spotless white, and kennels, with glass doors leading to the garden.

OIL INQUIRY IN UNITED STATES

Associated Press
Madison, Wis., May 6.—At the request of Attorney-General Homer S. Cummings, a special federal grand jury was called yesterday to hear testimony concerning charges of price fixing and unfair trade practices in the nation's oil industry. The nationwide scope of the investigation indicates it probably will be one of the longest grand jury sessions ever held in the western district of Wisconsin.

Investigators said they expected witnesses from possibly a dozen states would be subpoenaed. "Independent" oil dealers, Mr. Cummings announced, had complained that larger oil companies were attempting to force them out of business by manipulation of contracts and price schedules.

Haleakala, located on the island of Maui, Hawaii, is the world's greatest known dormant volcano.

GOLD MEDAL Haarlem Oil Capsules

Fine for Weak Kidneys

STOP RESTLESS NIGHTS

One 40-cent box of these famous capsules will put healthy activity into your kidneys and bladder—flush out harmful waste poisons and acid and prove to you that at last you have a grain of relief and stimulant that will swiftly cause these troubles to cease.

But be sure and get GOLD MEDAL Haarlem Oil Capsules—safe and harmless—the original and genuine—right from Haarlem in Holland. Millions have kidney and bladder trouble and never suspect it—some symptoms better realize might be backache, moist palms, puffy eyes.

NEW CRISIS IN NORTH CHINA

Japan Demanding Military and Economic Control of Hopei and Chahar

Canadian Press from Havas
Peking, May 6.—Japan is making a determined drive to obtain military, economic and cultural control of the northern provinces of Hopei and Chahar, Chinese sources declared here today.

Chino-Japanese negotiations now progressing at Peking, these sources stated, may end in the practically complete severance of the Hopei-Chahar area from Chinese authority.

TROOPS ALONG RAILWAYS
The Japanese have made the following demands:

To station troops along the railroads from Peking to Hankow, to Pukow and to Paochow; to arm and advise the Chinese forces; to use Hopei and Chahar for military operations against the Communists or any other enemy and to effect a Chino-Japanese military alliance.

The Japanese insist on complete economic autonomy for the area it was revealed.

MAN ACQUITTED AT REGINA TRIAL

Canadian Press
Regina, May 6.—A jury yesterday evening acquitted Sidney J. S. Lumden, twenty-four-year-old on-to-Ottawa trekker from Lethbridge, Alta., of charges of rioting and assault in connection with the Market Square relief camp strikers' riot here last July 1. Lumden was the fifth to be acquitted of the twelve men tried for rioting so far. Seven have been convicted.

WAFDISTS TO CONTROL EGYPT

Associated Press
Cairo, Egypt, May 6.—The Wafd (Nationalist) Party gained control of 163 seats in the Chamber of Deputies elections on Sunday, complete results show. The remainder of the chamber was divided as follows: Liberals, 17; Popular Party, 8; Dissident Wafd, 6; Unionists, 5; Nationalists, 4; Independents, 14.

A BREATHING SPELL

NOW THAT ITALY, WITH HER ultra-modern machinery for the butchering of human beings, has won her great "victory" over Ethiopia, it would seem fitting to suggest that the League of Nations call its members together in an effort to find a new basis for its future operation.

Canada is a member of the League of Nations, but this country never was, and never could be, a party to a policy which permits the sort of thing which has developed into the "conquest" of Ethiopia. We may as well face the facts. The League of Nations, as at present constituted, is useless. We have today the spectacle of the Emperor of Ethiopia in exile, on his way to Palestine with his trunks of gold and jewels, with Mussolini bellowing anew his defiance to the world. However, there is one thing for which we may be thankful and that is that, so far, another world war would appear to be well in the offing. Apparently, therefore, we are past another danger point, as we have passed many others in these last few perilous years.

The fact that even the Ethiopian fiasco did not produce a major war shows how deeply rooted in the peoples of the world is the fear of another catastrophe. In one crisis after another they have been willing to sacrifice almost anything to avoid this supreme evil. Even the dictators, while rattling their swords, have hesitated to arm civilian populations which inevitably would turn upon their masters after the exhaustion of war.

This is the one hopeful sign in the international situation today. As each crisis is passed there is a small breathing spell which the world can use, if it has the necessary intelligence, to make adjustments, to effect settlements of issues that lead to war. Far-reaching readjustments must be made if the final disaster is to be avoided—but will they be made in time? This is the great overshadowing question before the world. The League must be something or go out of business.

TROUSERS IN MOSCOW

A RUSSIAN STUDENT RECENTLY wrote to the manager of a Moscow department store as follows: "When will this mockery of consumers cease? Every day for a week I have unsuccessfully tried to buy a pair of trousers. Either there are no trousers of the right size, or prices are beyond my means."

The Soviet Government's paper Izvestia published the student's lament and beside it, with a certain fierce humor, a statement by Sidney Webb (Lord Passfield), the British Socialist. "Who in 1917, or even in 1925," asks Webb, "would have believed that in 1936 the Soviet Union would be able to supply its entire population with the needed consumers' goods and articles of clothing?" The case of the trouserless student is Izvestia's answer to Webb.

This, of course, is only a little humorous sidelight on one of man's most profound revolutions. The French Revolution, too, had its sans culottes, its men without breeches, who were troublesome but eventually were clothed. Izvestia, with a self-criticism peculiar to the Soviet Government, rages against the Second Five Year Plan's deficiency in trousers, but no doubt this shortage will be supplied in time and there will be trousers for all.

The more significant fact is that the state is fixing the price of clothing so high that the available supply will go to the highest-paid workers because they are presumed to be the most valuable to society. As The Christian Science Monitor's Moscow correspondent points out, "the average worker, receiving 190 rubles (\$82 per month) will not attempt to buy men's suits at 100 rubles each, the minimum price."

Besides manipulating prices for the benefit of the shock workers, the "Stakhanovists," the state has set up special sections in stores where they alone may buy. This in the classless society of communism!

The most obvious thing about the revolution seems to be its development along the old, obvious lines, the lines of human nature. The fact that some workers can get trousers and others can not, is only a humorous incident now, but it may turn out to be a symbol of the whole revolution. It seems to mean that year by year Russia is fast abandoning as impractical the pure Marxian theories on which the revolution was founded.

A CANADIAN ART

WE NEED IN CANADA A NATIONAL theatre, and in British Columbia a provincial theatre, says Dr. Weir. Speaking at the Drama Festival, the Provincial Secretary added that the provincial theatre should be in Victoria. With this opinion there will be general agreement here. It is encouraging, moreover, to find that the new movement in the drama all over Canada, the genuine development of a Canadian theatre art, is winning recognition within our governments.

An art as old as the stage, going back to the earliest days of our British history in the old miracle plays of the Middle Ages, dies hard. It may seem to languish from time to time, but it always revives in some new form.

For the last couple of decades it has been in one of its periods of eclipse. The movies, made at a relatively low cost and on a lavish scale which the stage could not duplicate, have almost driven

the traveling shows off the boards. But the dramatic instinct which is part of our nature is finding a new outlet through the Little Theatre, the amateur production which, in the course of a few years, has become a highly important part of community life in most parts of Canada.

This seems to be a highly significant development. The old legitimate stage has been taken away from the people by economic forces and the perfection of the machine. But it is being brought back again in a much more intimate way by the Little Theatre. In the old days, the people watched the play. Now they make it themselves. They produce it, they act it and often they write it.

Usually it is inferior technically to the old professional road shows, but as an instrument of education, and real culture, it is far superior. The young Canadians who are making a hobby of the theatre are taking out of it something which they can not obtain in any college and their lives will always be richer for it. This movement deserves well of governments, for it can have, and probably will have, a profound effect on our Canadian civilization.

THE SCIENTIFIC POLICE

IF YOU FOLLOW THE CRIME NEWS of the day, you may observe that the role of science in the solution of crime has become increasingly important.

The Titterton murder in New York, just solved, is a case in point. There the murderer was traced through a single strand of twine. Science played a decided role, says Police Commissioner Lewis J. Valentine.

And, in Washington, J. Edgar Hoover and in Vancouver, Dr. Vance tell that the laboratory is the best detective they have in their departments. Their files offer adequate proof of the part that chemistry and scientific approach in general mean to law enforcement today.

It is a broad hint to every police department in the country to turn as much as possible to the use of scientific deduction. The day of the "dumb police" of the comic sections and early motion pictures is over.

YET WAR HAS THE FLOOR

A SIGNIFICANT BIT OF MATHE- matics comes from Washington, D.C., as our neighbor's budget makers map next year's appropriations. The State Department, which Charles Evans Hughes once called the "department of peace," is asking for 1937 approximately one seventy-fifth of what the United States expects to spend on its army and navy in the same period.

Navy and War Departments, points out Secretary of State Cordell Hull, could operate only 5.7 days on the amount requested by the State Department for the next year. The gross budget of the State Department, about \$15,000,000, would be about half the cost of one battleship. Says one United States economic critic: "Is not there a hint that, after all, we might consider devoting a little more attention to problems of the good neighbor, as it were? Prevention is many times worth any amount of cure."

The League of Nations had better go into a huddle and ask itself what it ought to do about itself.

Would the Romans of old have gone into such delicious excitement as did the modern Romans yesterday after the "capture" of the Ethiopian capital? In those days they fought on even terms.

One of these days, of course, the world will tumble to the idea which Soviet Russia's Foreign Commissar Litvinoff let drop at the opening of the Disarmament Conference four years ago—now put away with moth balls—and agree that the only way to disarm is to disarm.

These must be great days for Mussolini. But what is the King of Italy doing about his country's victory? Is he still in the background? What of men like Professor Salvemini and Senator Albertini? They, supporters of liberal thought, will come back and Italy will be praising them and the principles for which they stand—long after the "conqueror" has gone into oblivion.

What Other Papers Say

COMMISSIONS COME HIGH
The St. Catharines Standard

John R. MacNichol, M.P. for Davenport checked over the estimates for the running of seven federal commissions this year and each commission averaged \$250,000 in cost, office staff, motor cars and other appurtenances. It begins to look as if commissions in Canada had become a racket.

MAN'S RESTRICTED FIELD
The Trenton Courier-Advocate

Some time ago this column contained an editorial, "What Women Can Do," which was reprinted in The Ottawa Journal. After reminding our readers of the many things that women have done or attempted to do we closed with the remark that we had never heard of a woman driving a race horse or singing "Asleep in the Deep" or "Bells of the Sea" before an audience. We are still to hear of a woman driving a race horse.

USING A TYPEWRITER
The Peterborough Examiner

It has been decided to purchase a new typewriter for the office of the city engineer in Peterborough. The machine which will be displaced has been in service for twenty-one years.

That does not constitute a record because there are typewriting machines in operation today which have been on the go longer than that, but twenty-one years of service is a pretty fair amount to extract from such a machine. The new machine is to cost \$120, and if it lives as long as its predecessor then the cost per year will be about \$5.75 plus the amount spent for ribbons.

AUSTRALIA JOINS ARMAMENT RACE
The London Free Press

Australia has joined the armament procession. Australia has added to its budget this year \$10,000,000 to strengthen its navy. Two new ships are being built and the personnel of the navy is being enlarged. Coastal artillery units will be increased and bigger guns will be mounted. Anti-aircraft guns and searchlights will be manufactured, and land forces will be mechanized.

New air force squadrons are to be formed, and more machines bought. An increased amount of \$250,000 is being provided for civil aviation development, including the enlargement of airfields and the extension of night landing facilities. There are already 151 public airfields.

Twenty-five Years Ago To-day

May 6, 1911

(From The Times Files)
The parks of Victoria loomed large in the business of the City Council last night. Among the communications was one from Mr. Justice Martin, who made a series of suggestions for beautifying the city by the extension of the present parks and the acquisition of new ones.

Joe Moore, the crack local five-mile runner, and G. Williscroft, another well-known athlete, particularly renowned for his basketball playing, which game he played for the Y.M.C.A. team all through the past season, have left for northern British Columbia. Both are entering the service of the provincial government on the Skeena River.

Bringing south the word that two of the local sailing schooners had reported at northern ports, the Lady Mine, Capt. Delouchrey, with 109 skins, at Rose Harbor, and the Jessie, Capt. Hester, with about eighty pelts, at Jedway, the C.P.R. steamer Amur, Capt. Locke, arrived in port yesterday afternoon from Queen Charlotte Islands and northern British Columbia points after a dirty passage.

Last evening the Dean of Columbia met the parishioners of Oak Bay at the school house for the purpose of discussing ways and means of raising sufficient funds to build a chapel-of-choice to the cathedral in that municipality.

Other People's Views

WARNING!

The Times urges its correspondents to restrict their contributions to 600 words. Henceforth it positively will not print communications which exceed that length.

These letters must be plainly written on one side of the paper only, and must be accompanied by the name and address of the writer, not necessarily for publication but as a guarantee of good faith.

Letters will not be re-written for publication. If they are not legible no attempt will be made to read them.

Letters not used will not be returned to the writers.

Letters containing offensive personal reflections will not be printed.

These rules, which henceforth will be carried out absolutely, are designed as much for the protection of our present readers as for that of The Times.

CAUTION!

The Times will not assume responsibility for the return to the writers of articles sent for publication in the Correspondence Column or anywhere else in this newspaper, whether they are published or not, unless they have been specially solicited.

SAVE VICTORIA!

To the Editor:—It is apparent that matters at the City Hall have been drifting from bad to worse. Aldermen in the past have been feared to face the issue that this city has been living beyond its income. None have been big enough to face the issue and grapple with it. Now the taxpayers find themselves in a pretty mess—faced with the prospect of being squeezed out of the last of their property, which they have carried with patient sacrifice during the depression.

The only remedy, ultimately, to re-establish ourselves is to cut municipal expenditures. Taxpayers must give pussyfooting aldermen to understand that the end has come for them. It is ridiculous for aldermen to seek to throw all the blame on the provincial government. That is not where the fundamental trouble is. The city has no right to throw the blame all on the government while aldermen are still obsessed with the generosity

Joseph Rose Optometrist

1923 Government St. Phone 5-0214

complex—generosity with the taxpayers funds.

The time has come for action. Let the taxpayers unite behind some proposal such as that set forth by Alderman Brown in The Daily Times yesterday. The most effective advertising Victoria can have is to be known as a community that lives within its income and is determined to remain solvent. The only solid basis for our property is to keep our tax rate down so that it will pay persons to hold property here and thus do business here. If we show determination to maintain an attractive tax rate, we will do more to bring and keep people here than by all the costly publicity methods with city officers traveling around the continent by airplane and train at the taxpayers' expense.

Let us face the issue and save our homes. The most patriotic move we can make is to make this a "Save Victoria" year by forcing a drastic revision of policy at the City Hall. "SAVE VICTORIA!"

ALSO IN DEFENCE OF CATS

To the Editor:—Bruce Hutchison, in his article of April 29, has touched on a very interesting question. Far be it from me to come to the defence of cats. I shoo them out of my garden at all hours with the first available harmless weapon. Nor have I anything but regard for the dog in his legitimate place. But if Mr. Hutchison lived in the city, where, in one small municipality, upward of six hundred are officially licensed to yap, he might discover some virtues in the silent cat.

On the rarest of occasions have I heard cats at night, and though the noise was furious while it lasted, it had the saving grace of being the definite expression of an animal's nature, so unlike the insane barking of the dog who has been robbed of his natural vocation in life, turned out on city streets, yards, or gardens, revealing his misery by barking at passing vehicles, at other dogs, or at nothing at all. Let one dog initiate the chorus in a high, ear-piercing note, and soon the whole ear will respond in a deafening crescendo.

The cat has at least retained its independence of mind—preserving its characteristic virtues of its breed—whereas these dogs, through no choice of their own, have been taken from their natural sphere and then neglected or else bred into a fawning perversion of the noble species to which they rightfully belong.

Any one accustomed all one's life, as I have been, to handling hard-working dogs, can only be disgusted at the cruelty and unwholesomeness of keeping swarms of dogs in a small area, practically caged among humans, reduced to bundles of nerves, hysterically and incessantly screaming to relieve their thwarted instincts. The cat is, indeed, a murderer, but these dogs murder the most precious gift of man—his peace and quietness of mind—pleasing the ears of anyone whose senses are not completely dulled into insensibility.

Mr. Hutchison hopes the constables of Staveley, Alberta, may become wealthy. But if the constables of Victoria were only empowered on the same terms to liquidate every shrieking dog in the district, thus weeding out all but the few silent and self-respecting animals they would, not only become wealthy in this life, but on the prayers of multitudes have a sure and happy entrance into the life to come.

I intended to append my name to this letter, but on reading it to a friend who has been longer in the city, I must, for reasons I respect, sign myself,

ANTI-NOISE.

CFCT PROGRAMMES

To the Editor:—I should like to express through the medium of your paper my complete surprise and disappointment at the programmes given to the public by Victoria's radio station CFCT.

I have heard many programmes in towns all over the world, but never have I heard such a sorry one as are broadcasted from this lovely city.

Rulings Made For Softball Players

The executive of the Lower Island Softball Association, at a special meeting held yesterday evening brought in regulations governing the signing of players for the coming season.

Teams in A and B sections are given equal status as far as the signing of players is concerned, while C section clubs are authorized to carry two A players and three B players. Lower sections are allowed to sign two B section players. Clubs are reminded that entries for all sections will close on Saturday at 6 o'clock.

To Meet in Soccer Final on Saturday

Metropolitans and Lake Hill, Sunday school soccer squads, deadlocked at one game apiece in their play-off series, will meet Saturday morning at the Athletic Park in the final for league honors. The game is billed to start at 10.15 o'clock. P. J. Woodley will referee.

No admission will be charged although a silver collection will be taken to help defray the expenses incurred when one of the players of the league was injured.

The United States is the largest exporter of lumber and lumber products in the world.

Plan Effort To Release Capone

Chicago Lawyers Discover New Technicality For Attempt For "Scarface"

Associated Press
Chicago, May 5.—Two attorneys were at work today trying to build the word "the" into a legal loophole to free Al Capone, this country's first "public enemy no. 1," from his prison cell on Alcatraz Island in San Francisco Bay.

They based their hope for the beer baron's freedom on a new decision this week in a federal statute covering extension of grand juries. Because the law said "the" instead of "a," the lawyers, William Parrillo and Lyman W. Sherwood, declared "Scarface Al" four years behind the bars on an eleven-year sentence on income tax charges was a legal nullity and he should be free.

An opposite opinion was expressed by U.S. Justice Department officials at Washington. They said the point was not valid because it was not raised at the racketeer's trial, and that any move to release Capone would be fought.

But Parrillo announced he and Sherwood would go within two weeks to San Francisco to file a plea for a writ of habeas corpus. The avenue they hoped to use already was approved in a case this week by Federal Judge William Hollis. Six indicted officials of the Trustee System Service Corporation were freed because their indictments were returned by a grand jury held over by "a" judge other than "the" judge who empaneled the jurors.

In Ecuador and Colombia, cheese balls and chocolate form the basis of most midnight snacks. A ball of hard white cheese is broken into a cup of chocolate, made from hot water and a cocoa sugar ball, and the combination is eaten with a spoon.

SCOUT NEWS

In the last five years over 350 boys have received Scout training in the Second Edmonton (St. Faith's Anglican Church) Boy Scout troop.

One of the victims of the recent Japanese military assassinations, Admiral Viscount Makoto Saito, was the chief of the Japanese Boy Scouts. Admiral Saito was appointed Chief Scout of Japan in June last, and had been closely associated with the movement since 1932.

The investiture of five French-Canadian "King's Scouts" was made in an impressive ceremony at St. Coeur de Marie Church, Quebec, by Cardinal Villeneuve, in the presence of 300 members of the Federation of Catholic Scouts of Quebec.

A Scouting appointment of important possibilities was that of India's first Chief Scout commissioner. The new leader of all-India is the Nawab of Chattri, Sir Muhammad Admat Sald Khan, first Indian governor of the United Provinces.

Last year 566 Ontario Boy Scouts demonstrated their versatility by properly washing clothes, and so qualifying for the Scout laundryman's proficiency badge.

The membership of the Boy Scout organization in Canada has increased more than 4,000 in a year.

A Scout good turn is a dog involving quick action and some courage was that of Scout Joyce of Hunstanton, England. On his rounds as an errand boy, Joyce came upon a dog with lighted firecrackers tied to his tail. He called the dog and cut and threw away the firecrackers before they exploded.

Gallantry awards for stopping runaway horses still are made to quick-acting Boy Scouts. At Cheddington, Buckinghamshire, when a baker's

horse, frightened by a sanding machine, ran madly down High Road, Scout A. Weeley, thirteen, ran and stopped him, and a certificate of gallantry was awarded.

A deeply-regretted loss to Scouting in Staffordshire was the death of the Earl of Dartmouth, president of the country Scout organization since 1913.

"The Boy Scout movement is a logical source of that type of needed world leadership, which is based on courage, faith and determination to work hard at any given task," Vice-Chancellor A. E. Morgan of McGill University.

Abandoning dreams of some day seeking pirate gold in the South Seas, adventurous Boy Scouts of Quebec and Ontario apparently are turning to gold-seeking nearer home. Last year, annual reports show, seventy Quebec Scouts and thirty-three in Ontario passed examinations qualifying them as prospectors.

London's last Boy Scout census showed 1,064 Cub packs, 1,164 Scout troops and 659 Rover crews, and a total membership, all ranks, of 57,695.

SALT SPRING ISLAND

The annual general meeting of the Harbor House Tennis Club was held last week. Election of officers resulted as follows: Hon. president, Capt. F. H. Walker, R.N.; president, Desmond G. Crofton; vice-president, Dr. Raymond Rush; secretary-treasurer, Graham Shove; entertainment and tournament committee: Mrs. Graham Shove, Miss Boreen Crofton, Messrs. Dermot K. Crofton and P. Crofton; tea committee: Misses Dorothy Moorhouse and Edna Morris.

A resolution was passed limiting the age of members of the Junior Tennis Club to sixteen years. In recognition of the splendid service given by J. D. Halley, retiring secretary-treasurer, he was made an honorary member of the club. An epitaph in an Enosburg (Vt.) cemetery reads: "In memory of Anna Hopewell. Here lies the body of our Anna, done to death by a banana; it wasn't the fruit that laid her low, but the skin of the thing that made her go."

LIBERAL WORK IS REVIEWED

Saanich Audience Told of Government Steps to Improve Conditions

Progress in government can be made only by surmounting obstacles and through compromise, declared Norman W. Whittaker, M.P. for Saanich, at a public meeting in Marigold Hall yesterday evening. If the C.C.F. opposition in the present Legislature did not think progress was fast enough it was because the members of that group had not had governmental experience and did not realize the difficulties which must be overcome.

Mr. Whittaker gave a full account of his stewardship and was accorded by the meeting a vote of appreciation for the fair-minded manner he had represented his constituency and for the able manner in which he dealt with the government's record.

The Liberal administration had shown a real sincerity in fulfilling its obligations to the people of the province. From the Workmen's Compensation Act of 1916 to the Health Insurance Act of 1926 there was a list of social legislation benefitting all classes of which every loyal Liberal could be proud.

EFFORTS TO CREATE WORK

Before rushing to criticize the present administration on its pre-election slogan of work and wages, one must stop to consider just what had been done toward achieving it, Mr. Whittaker said. Throughout the campaign Premier Pattullo had advocated the use of national credit to provide employment for the able-bodied. From the very moment he stepped into office he had pressed this cause. Numerous conferences at Ottawa had been held and every time the Premier

had urged the importance of public works to absorb surplus labor.

It was gratifying to see that now the Dominion Government would spend some \$60,000,000 on public works, thus using the national credit to provide jobs.

In other directions governmental action had resulted in an improvement of employment and wages. Through minimum wage and hours of work laws it was estimated the industrial payroll of the province had increased by \$15,000,000 a year. Reduction in hours of work had spread more jobs around and enforcement of minimum wages had raised the level of earnings.

Whenever it had the cash the government had initiated other works to give employment, he said. Large sums had been spent on road surfacing, flood relief and similar undertakings, and better relief allowances had been provided.

BETTER TERMS CASE

Mr. Whittaker dealt with the initial success of the administration in its fight for better terms. By forcing recognition of this claim at Ottawa the province was now receiving an additional \$750,000 per year interim subsidy until the issue was finally settled.

Dealing briefly with the political situation, Mr. Whittaker warned his audience against being misled by what appeared to be a modification of C.C.F. policy as outlined by the leader, Rev. Robert Connell. The C.C.F. group was still outright socialists, he said. He believed the people of British Columbia were by no means ready for revolutionary reforms such as that would entail.

WORK IN SAANICH

Talking on local matters, Mr. Whittaker described permanent road work carried out in Saanich in the last fiscal year at a cost of \$33,000. The sum of \$10,000 was put in the budget this year for maintenance, he said.

Claw Martin was the second speaker, dealing with federal matters. He spoke mostly of the new Canada-United States trade treaty, which he termed a "great accomplishment." It was the first reciprocal arrangement of its kind since Confederation. Canada was already reaping the mutual advantage from the pact and would get even greater benefits as time wore on, he thought.

E. E. Bell was chairman of the meeting, and J. J. Matheson, baritone, rendered solos.

COMPOSER TO VISIT CONCERT

Sir Ernest MacMillan Will Give Talk at Centennial Church

Music circles in Victoria have been stirred by the forthcoming visit to the city of the distinguished composer, conductor, Sir Ernest MacMillan of Toronto, who will have a busy day here on Friday.

Prior to the reception to be tendered him at 9 o'clock Sir Ernest will attend the concert to be given by the George J. Dyke String Orchestra in the Centennial Church at 8 o'clock, when he will give a short talk on "The Orchestra and its Importance to the City Life" and will conduct one or more of the numbers which will include an overture two Suites for Strings including the festival test piece, "Greenhall" Suite; Sir Alexander Mackenzie's "Benedictus" (in tribute to a late member); Haydn's "Serenade" the "Spinning"; and "Sailors" choruses from "Flying Dutchman," and other numbers.

SOLOISTS

The soloists will be Sheila Conway, in "Elegy" (Massenet), and "Let all my life be Music" (Spross) accompanied by Margaret Pringle; and Frank L. Tupman, who will sing "Phyllis" such charming songs as "The Little Hour," "The Last Hour" (Kramer), and "Top of the Morning" (Manauca); and Fay Ockenden, violinist, who will come over from Seattle and play Debussy's "En Bateau," accompanied by her sister, Helen Ockenden.

A duet "Break Diviner Light" (Al-Husen) will be given by the two vocal soloists.

Mrs. Paul Grech, organist of the church, will accompany at the organ some numbers of the orchestra and play the accompaniments for Frank Tupman.

Special arrangements have been made for students and local choral and instrumental groups. This recital will be under the auspices of Centennial Church choir and the proceeds are for the benefit of the choir fund.

Concert at Knox Church Success

The Young People's Society of Knox Presbyterian Church held a very successful concert in the church on Monday evening. The following assisted: Little Sylvia Welsh, recitations, "Green Apples" and "Bay Rum"; Enid Middleton, vocal solos, "Smiling Through" and "Flow Gently Sweet Afton"; Mrs. Kent and a string quintette played two numbers: Cyril Woodley, a cowboy singer, sang "The Little Log Shack I Can Always Call My Own" and "Billy Boy"; Ernie Crackford, a magician, gave a very fine performance; Miss Edna Burgess rendered vocal solos, "Love Is Meant to Make Us Glad" and "Little Son"; Enid Middleton sang "Sweet Scented Hawthorne," accompanied by Joyce Morrish, who also played a piano solo; a vocal duet, "Hiawatha's Melody of Love" and "Santa Lucia" were sung by Miss Iria Taylor and Miss Bella Craig; Mr. Hollins gave a humorous recitation and Mrs. Hollins a monologue; Harvey Lowe's Yoyo exhibition was much enjoyed; Master J. S. Patterson sang beautifully "Garden of Sleep" and "Japanese Love Song." The pianist for the evening was Miss Catherine Hamilton.

OPPOSITION TO MISSIONS WORK

Rev. R. H. Glover Tells Problems of Gospel Spreaders in China

Missionary work in China today is facing persistent opposition in the form of evil forces which are continually counteracting Oriental mission activity, said Rev. Robert H. Glover, home director for North America of the China Inland Mission, during an address at the Church of Our Lord, yesterday evening.

The seriousness of present times would not discourage the work of the mission, however, he said, because there were many areas in China yet to be covered.

Mr. Glover said he had been in China for forty-one years and had yet to see normal times there. While every reasonable precaution was

taken to protect missionaries, safety first was often forgotten in the zeal of those engaged in the work.

Mr. Glover listed the forces working against each other in regard to mission work. For the encouragement of the work there were, the "open door" to missionaries in the greater part of China, improved facilities for communication and transportation, including steamers, airplanes and automobiles; the development of churches, the changed attitude of the people which decreased prejudice to missionaries and the effect of work already done.

Working against these were: heathenism, the vices of modern civilization, including narcotics, alcohol, lewdness, atheist literature and communism, with their teachings against God. One of the greatest forces directed against communism was the slaying of Rev. John Stem and his wife, Mr. Glover said. This had caused Moscow to stop its teachings of putting missionaries to death, he said.

DEATH DECLARED ACCIDENT

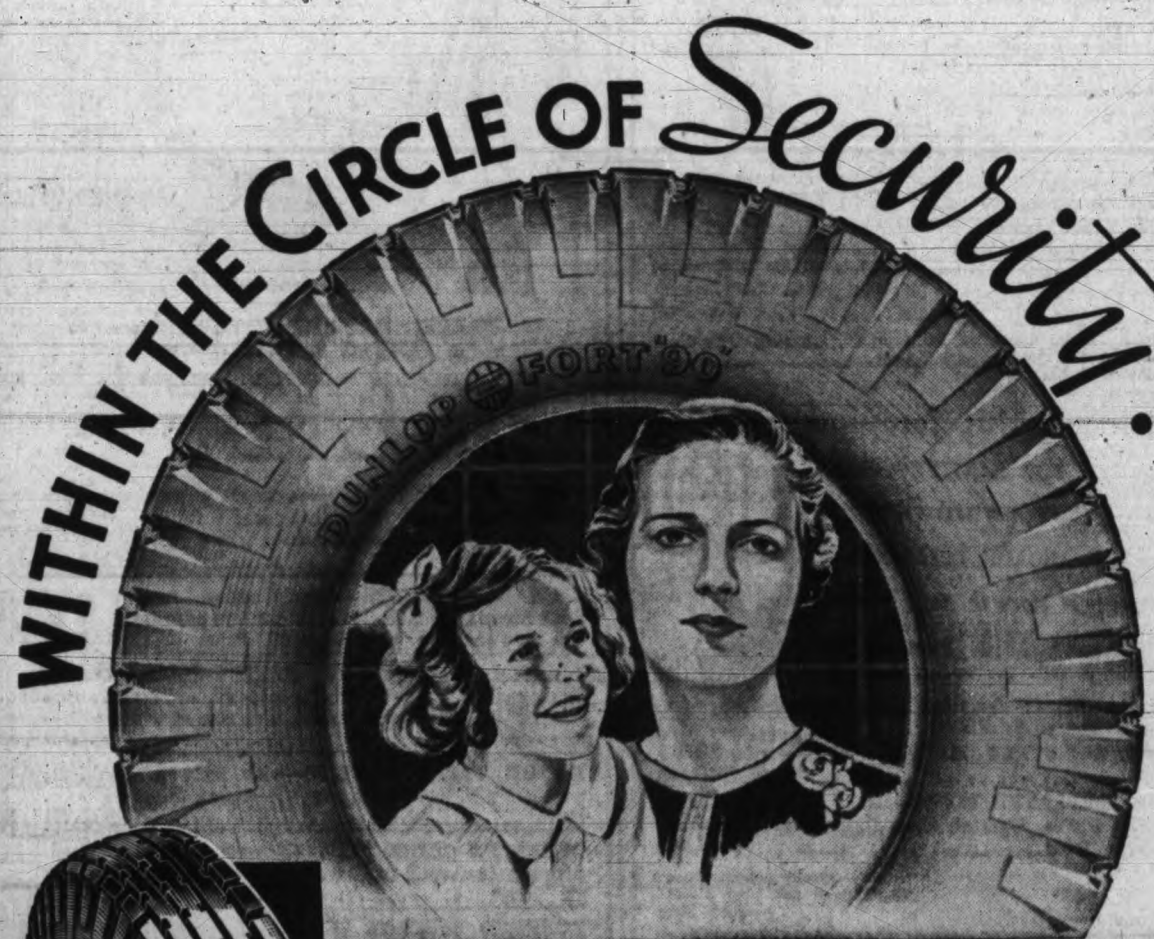

New Westminster, May 6. (Canadian Press).—A verdict of accidental

FOR itching SCALPS

Cuticura brings soothing, welcome relief. The Ointment aids in removing dandruff—the Soap keeps the scalp clean—and promotes hair beauty. Soap 25c. Ointment 25c. FREE sample—write "Cuticura," Dept. 6, 236 St. Paul Street, W., Montreal.

death was returned yesterday by the coroner's jury which inquired into the death of John Lewis Smith, forty-four-year-old former broker of Vancouver, who was struck by a British Columbia Electric Railway Company interurban train last Saturday. The body was shipped to London, Ont., his birthplace, for burial.

Hayes and Taft, former presidents of the United States, celebrated their silver wedding anniversaries in the White House.

Halifax (By Airmail).—We had, after the reception of the telephone, made no further effort to follow time by Alf's watch. We had a fine feeling of security in our telephone, and it was nice to have an excuse to ask the ground crew every sort of question.

We were entirely at sea as to what method was being employed to reach us. Alf and Magill had been firm in their belief that the rational approach was through an old shaft they had shown me on my first visit to the mine and which they told me led to the workings of the Archibald lead at the seventy-foot level, and they had, prior to Magill's death, threatened to leave our place and to make an attempt to find their way up to this level and then beat upon the wall, hoping they would be heard.

Alf, I felt, after Magill had gone, was reserving his final effort, husbanding his strength and energy for his last desperate attempted extraction.

PRAY FOR RESCUERS

Our one-way telephone would not permit us getting the entire plans of the ground crew. The great point that was always before us was that we could be reached, but what about the last foot or so. Would they have to shoot through the hanging wall, and if so would a shock such as this permit of the collapse of the whole vault of the shaft just above us?

We had another worry, a very major one. It was present from the first moments, and that was that the men might be hurt or killed in a vain, or even a successful, attempt to extricate us. However, this, too, was something over which we had no control, and we could only pray that any men brave enough to attempt to deliver us would have divine protection.

The telephone brought us definite promise of delivery. We were amazed when we were told that we would be delivered within six or ten hours. It had the effect of buoying us up and making us feel that the situation was not too bad, that if we could look forward to delivery within twelve hours we would come out of this in very good physical shape. It also led us to preserve our strength and made us content to lie quietly, conserving what little light we had, as we had got down to about half of one candle. The matches which had been sent to us I had put in a little glass vial, and candle matches I carried in my innermost pocket, and when occasion demanded we lighted the candle for the few moments necessary. In this wise we passed the last two or three days.

SUFFERED MISERIES

It is impossible for me to recall or differentiate the days, excepting that throughout the whole time Alf suffered miseries from the numbness of his legs and from his arthritic pains. He seemed to me to sleep well at intervals, and I believe that he thought I slept very well. At all events we should know how each other slept, as we lay with our arms around each other. Alf had a hole cut in his coat through which Magill and I could introduce our arms for added warmth.

These periods of sleep were very distressing; we would doze and begin to mutter in a dream conversation. His companion would rouse and ask what had been said, when the sleeper would have to waken up and say,

"I was talking in my sleep." After an occasion such as this I heard Alf tell them over the telephone that "the doctor was getting delirious."

It surprised me to hear him say this and I gave the matter a great deal of thought. I had told these men that if death came to them that I did not think it would be uncomfortable, but that it would come to a mentality that was so below normal that they need not fear an acute realization of it.

I therefore called my brother-in-law, Charlie Ivey, and had him get his sister for me. I expected at this time that I would be rescued, and so we went on from hour to hour, doing the minimum in the way of physical exertion, drinking the water that we had so abundantly within our reach and wondering as to the method of approach.

On two occasions Alf, who knew the mine like a book, and its workings, seized the telephone and undertook to direct the rescue, calling for Henderson. He ordered the placing of the men above, with instructions to have the drill at certain places where they were working the shaft in order that they might listen below and from the intensity of the sounds tell them above the closest point at which they were to us. This experiment did not prove of any real value to us.

It seemed to us that the drills were too far away to allow us to detect any difference in the intensity of sound. We had a few discussions on the conduction of sound, but we were entirely at sea. If they could tell us we would be out in two hours, or even eight hours, and still we were unable to identify any sound underground, they would seem to be within forty feet of us.

Suddenly one afternoon we got the idea that someone was working not far away from us. It was not the sound of steel on steel, it was not the sound of timbering, it was not like any sledgeing of soft rock; it was intermittent and with it was the sound of people moving around.

One had the idea that there were voices at times, but it was all very indefinite in the presence of this eternal dripping and rushing of water, so that one would go off to sleep to experience more of these wretched drama. They seemed to be in my particular case, take on a characteristic feature. The return to consciousness from a dream always had to do with chilling, when I would dream I would fancy myself in a warm, beautifully-lighted, luxurious environment and I would reach out to take something luscious and attractive, and feel the atmosphere grow very cold, and immediately all the luxury would fade and I would open my eyes upon the blackness of the cavern and my ears to the dripping and running water in the mine.

I would be dreadfully cold on the side away from Alf and following a fit of severe shivering or chilling I would begin to settle down to the

Dr. Robertson, telling of the approach of his rescuers in Moose River mine, said he and Alfred Scadding, when relief was imminent, refused to buoy themselves up with hopes that might prove vain. Nevertheless the joyous certainty was there, and Dr. Robertson tells of his emotions when the courageous Dragenmen appeared through a hole in the rock. All of the men above were prominent in the rescue. George Morrell, after he emerged from the mine following seventy-two sleepless hours, appears in (1) immediately after the rescue. Hon. Michael Dwyer (2), minister of mines, is seen greeting the R.C.M.P. commandant, Truman Hersfield, hard-rock gold miner, who was first to reach Dr. Robertson's side, appears in (3).

routine of the situation, so that sleep was not by any means a rest, nor do I know how much sleep I had.

ANXIETY ABOUT BLASTING

The sounds in our immediate locality began to increase and we had not yet been able to determine ourselves or find from the crew the method by which our rescue was being accomplished. We had the one important thing we must determine, that if the final manoeuvre was to be a shot to blast through to us, then we must know beforehand and take ourselves off to a position where we would be secure from such blasting.

If they were going to use a final blast, then we must know it beforehand. We must warn them beforehand, too, that we were referring to another position where we could be looked for in case the passage was cut off in the final blasting. This was our only anxiety in regard to blasting. Had we gone to another position, our telephone would not have reached, and therefore we would have been unable to communicate with the surface and it would have ensured a period of anxiety during the time the drift was being dug out to reach us. They made it quite obvious to us on the second and last day that they were not going to blast.

We, therefore, were very much at ease of mind on this score, so that when the sounds of movements, the exact locality of which we could not be sure, increased, we were very happy.

These movements got to the degree where we would have the impression that a man was moving in the next room, and we could hear one after another a shout which I answered. We shouted back and forth a few times, but nothing more came of it.

WAR EXPERIENCE RECALLED

It was very much like the mining which was done during the war, when one could hear movements in another mine being pushed out from the enemy side, only in this instance as it went on we could hear the men talking. At one time the talking went on for two or three hours and then suddenly ceased. During that period there was an occasional blow from a hammer on soft rock, there was some pounding of wood, but it was all a very quiet performance during this time.

There was some scuffling of pipes, which we had answered by pounding on the pipes, and we knew definitely that men were in contact with the

"RELIEF WAS CLOSER THAN I ALLOWED MYSELF TO BELIEVE"

URGES AID FOR WAR VETERANS

T. A. Barnard Addresses
Canadian Legion Meeting

Canada's greatest problem today is the 40,000 ex-service men not in receipt of pensions who are on the verge of starvation, said T. A. Barnard, speaking to members of the Britannia Branch of the Canadian Legion on "The Canadian Legion, Past, Present and Future," at a meeting yesterday evening.

Mr. Barnard claimed that these men had been prematurely aged by war service and the depression. Because they were in no condition to do a good day's work they were automatically entitled to the necessities of life by virtue of their services for king and country, he said.

"War settles nothing. The last war made the world safe for hypocrisy, rather than democracy," the speaker claimed.

Mr. Barnard is the British Columbia representative on the Dominion Command of the Canadian Legion and past provincial president.

D. G. Holmes introduced the speaker to the gathering.

Coast Mission Work Outlined

Extensive Activities of B.C. Body Reviewed in Annual Reports at Meeting

The annual meeting of the Columbia Coast Mission, which now covers over 20,000 square miles of sea and land, was held recently, and was presided over by the Bishop of Columbia.

The honorary-treasurer, Gordon V. Pearce, gave the financial statement for the year 1935, which showed the mission to be in a healthy condition financially.

Major Harold Brown, chairman of the management committee, presented his report.

Rev. John Antle, superintendent of the mission, gave his report and mentioned the fact that starting thirty-one years ago, with one small hospital at Rock Bay, the gift of the Hastings Mill Company, and one small boat, Columbia I, the mission had grown until now there were three hospitals at strategic points along the coast, St. George's, Alert Bay, St. Michael's, Rock Bay, and St. Mary's, Pender Harbor. There were also five churches and two Indian missions over which the Columbia Coast Mission had supervision.

The following figures told of the medical work carried out during the year:

St. Michael's Hospital, Rock Bay—Hospital days 1,802, office and home visits 368 and medical and surgical cases 258.

St. George's Hospital, Alert Bay—Hospital days 3,707, office and home visits 1,929, medical and surgical cases 388, child clinics 41 and children attending 91.

St. Mary's Hospital, Garden Bay—Hospital days 1,330, office and home visits 1,289 and medical and surgical cases 125.

Hospital ship Columbia—The figures indicated the Columbia had an exceptionally busy year, particularly in regard to emergency calls, as follows: Office and home visits 1,163, miles traveled 17,384, miles traveled in response to emergency calls 4,340.

Rev. Alan Greene, with his little ship *Rendezvous*, traveled over 8,600 miles, 132 regular church services were held, 33 communion services, 8 baptisms, 8 marriages and ten burials.

Rev. H. H. L. Dance, chaplain of the Columbia, also reported a busy year, as the following figures proved: Church services 47, communion services 49, baptisms 40, weddings 2 and burials 2.

RELIEF WORK

A considerable amount of relief work, consisting of the distribution of clothing, both new and second-hand, shoes, etc., was distributed over the Columbia Coast territory

STORIES IN STAMPS

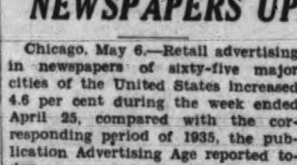

By I. S. Klein

New York City, in the early summer of 1935, saw the arrival of what was the world's finest ocean liner—the *Normandie*. After only one year of uncontested supremacy on the high seas, this great French liner faces the challenge of England's champion, the *Queen Mary*.

As it rides the sea, the *Normandie* remains a marvel of size and comfort. Built at a cost of \$89,000,000, the huge ship is too long and too wide to pass through the Panama or the Suez Canal. It is half again as large as Germany's crack liner, the *Bremen*, and a single round trip across the Atlantic is said to cost \$250,000.

The gigantic size of the *Normandie* can be realized from the fact that a spacious play and punch-and-judy room fills the deck space within one of its two dummy funnels, while the other is occupied by a smoking-room and cafe.

For the liner's inaugural trip, France issued the special stamp shown here.

PHONE TRUST UNDER ATTACK

17,000,000 Subscribers to
Get Lower Rates as Result
of Investigation

Washington, May 6.—There may be some reduction in many telephone bills soon. Officials in charge of the investigation of the American Telephone and Telegraph system assert they are laying the basis for rate cuts in every state which would save money each month for more than 17,000,000 subscribers.

Investigators for the Federal Communications Commission think they are proving that profits have been far in excess of reasonable return on investment and their facts will be at the service of all state regulatory authorities. Such facts have not been available heretofore.

The largest private business in the world, with assets of \$5,000,000,000, and said to be collecting \$1,000,000,000 a year from the public, has been able virtually to defy attempts at regulation.

The patent monopoly of the Bell system, it has been declared, enabled the parent company to lease its telephone instruments at rentals which, over one period of eleven years, netted 150 per cent annually on the cost of instruments.

Subsequently, the licensed companies paid a percentage of their gross income as rental for the instruments, but the profit rate still ranged from 28 to 89 per cent, depending on the A. T. and T. or FCC theories of accounting.

PROFITS, MORE PROFITS

After the new hand-set type of telephone had been perfected, the A. T. and T. in 1927 sold all its old instruments to its operating companies.

Chief Investigator Samuel Becker says the new instruments made the old type obsolete as fast as they could be replaced—at new profits—but that A. T. and T. charged a profit of more than 30 per cent on the old ones—a profit of \$14,000,000, which became a part of the rate bases of operating companies on which patrons even yet are charged interest at investment.

The old system of license fees charged to operating companies, originally set up to cover instrument rentals, was reduced to 1½ per cent annually on gross business and denominated as a charge for services rendered by the holding companies.

The total charge is from \$13,000,000 to \$15,000,000 a year. FCC experts claim a charge should not be made at all, that the alleged services—to operating companies actually are performed for the benefit of A. T. and T. itself, and that it should pay for them out of operating company dividends, running more than \$135,000,000 a year, instead of forcing subscribers to pay.

That is a point for state rate commissions to decide—and, after them, the courts.

MAY CONSOLIDATE FIRE INSURANCE

Following the lead of the city council the Oak Bay Council yesterday decided to investigate the advisability of consolidating municipal fire insurance under a blanket policy. No decision was announced on whether this plan would be adopted but inquiry was authorized into the plan under which the insurance is classified and handled through an insurance broker.

Marked with an X is the stone on which Alfred Scadding built a fire out of the dynamite box found in the mine at Moose River. Dr. Robertson, in his story of the ten days and nights before rescue, relates that after the fire went out he and his companions lay on this stone with arms locked around each other to conserve energy and body warmth. The scene above is the end-cavern on the east drift from the 141-foot level, wherein the three men sheltered beside the solid rock as the mine "riled and crashed for half an hour" during the succession of cave-ins which caused the entombment.

HEALTH UNIT FOR SCHOOLS

City Board Informed Metropolitan Area Scheme Expected For September

In anticipation of the establishment of a Metropolitan Health Unit for Victoria, the city school board yesterday afternoon decided to ask Dr. A. G. Price to continue his services as school doctor for the remainder of this term.

Dr. Price assumed the position temporarily on the death of Dr. Donald and has been retained since that time while the board has gone further into consideration of the Metropolitan Health Unit idea.

At yesterday's meeting the chairman, Trustee W. C. Moreby, stated he had been informed by Dr. H. E. Young, provincial health officer, that arrangements were being made for the establishment of the unit and would probably be complete before the start of the next school term.

On those grounds the city thought it advisable to delay still further the appointment of a special school doctor and will ask Dr. Price to carry on.

Reporting on the rubella epidemic, George H. Deane, municipal inspector, indicated it had shown a tendency to wane and hopes were held it would die out in the near future.

COW TESTING RESULTS

The following is a list of cows in the Vancouver Island South Cow Testing Association that gave fifty pounds of butterfat for April, 1936:

Violet (305), gr. Jersey, milk lbs. 1,066; fat lbs. 58.6; T. S. Mitchell. Peggy (359), gr. Jersey, milk lbs. 1,181; fat lbs. 58.5; T. S. Mitchell. Ken Farm Ada Abbeirick (165), p.b. Holstein, milk lbs. 1,340; fat lbs. 60.8; Vickery and Fisher. Beckey (104), gr. Jersey, milk lbs. 1,175; fat lbs. 51.7; Vickery and Fisher. Brownie (59), gr. Jersey, milk lbs. 1,237; fat lbs. 63.1; Vickery and Fisher. Doreen (155), gr. Jersey, milk lbs. 1,020; fat lbs. 54.4; Vickery and Fisher. Colshill Joan (92), p.b. Jersey, milk lbs. 1,252; fat lbs. 67.6; Vickery and Fisher. Lightfoot (131), gr. Holstein, milk lbs. 1,885; fat lbs. 82.9; Vickery and Fisher.

Langford

The monthly meeting of the W.A. to the Prince Edward Branch No. 91 Canadian Legion at Langford was held in the club rooms Monday.

The president, Mrs. A. Mackie, presided. A joint concert will be held Friday, May 15, with the Belmont Dramatic Society in the Legion Hall.

Plans were made for a miscellaneous shower at the home of Mrs. Deane-Freeman on June 1.

Mr. and Mrs. Fred Cook, late of Millstream Road, are now residing in Victoria.

Mr. and Mrs. Lawley from Colwood are now residing in P. H. LeQuenne's bungalow on the Island Highway.

A meeting of the Girls' Branch of the W.A. will be held on Saturday evening, May 9, at the home of Miss Elizabeth Welch, Goldstream Road.

A rehearsal of the Junior Arts Club members has been called for Saturday afternoon in the Canadian Legion Hall.

A sheet of parchment nearly three feet square was required for the royal wedding certificate of the Duke of Kent.

Annual Marks U.B.C. Birthday

Interesting Publication Tells History and Achievements of University

Of interest not only to graduates and students of the University of British Columbia, but to all who take an interest in education generally, is a booklet just published in observance of the university's coming of age this year.

The book, neatly bound in blue paper and beautifully printed, contains a history of the university's twenty-one years of life, a description of the grounds and buildings, and a review of the work of the various departments.

The whole is illustrated by a large number of photographs, outstanding both for their interest and artistic excellence. These illustrations alone could stand as a pictorial record of the extent and variety of the work of the institution.

In addition to the intra-mural activities of the university, its work in affiliated colleges, extension societies and experimental stations is described, and the achievements of some of its graduates are listed.

The book, which includes thirty-seven pages of reading matter and twenty-three of illustrations, shows clearly that the University of British Columbia, although the youngest institution of its sort in Canada, is among the foremost in educational progress of all types.

C.N.R. EARNINGS

Montreal, May 6 (Canadian Press).

Increase of \$303,209 was shown yesterday in the gross revenue of \$4,894,024 by the Canadian National Railways for the nine-day period ended April 30, 1936, compared with \$4,590,815 for the corresponding period last year.

Just ten minutes before he died, the first President of the United States calmly felt his own pulse to indicate he knew the end was near, according to the writings of Tobias Lear, secretary to George Washington.

By PETE SALLAWAY

Miss Stammers is expected to prove a serious stumbling block to American hopes, as represented by Mrs. Moody and Helen Jacobs, at Wimbledon. The southpaw's backhand, always before the vulnerable point in her armor, no longer is a major source of trouble. She has coupled this improved backhand with alarming drives to both wings and net work comparing favorably with the finesse shown by Mrs. Moody and Lenglen in her prime.

played ragged golf on the last nine. Mrs. Hill lost her side its last chance to catch Mrs. Holm and Miss Anderson when she hit into a bunker on the fourteenth and finally conceded the hole.

Cards in:

Hill-Clutting ... 5454503xx-32
Holm-Anderson ... 5555453xx-32

Holm-Anderson won, 3 and 2.

The two teams went into the singles with the score standing 1½ to 1½.

(Turn to Page 14 Column 2)

GOLF WINNERS

Mrs. Alex Watson won A class honors in the monthly medal competition played yesterday at the Victoria Golf Club with a card of 99-16-3, while Mrs. Barber-Starkey took B class with a score of 114-22-21.

W. A. Pearson had the high season average with a score of 47.6. A. M. Kittrick won the Dr. Moore Shield for sportsmanship, while a Nelson was first as the one who has shown the biggest improvement during the

Commission. The match will probably be played at the Athletic Park on May 16.

The winner of this fixture will go into the final against a Mainland eleven. The other half of the semi-finals has not been drawn yet.

PRACTICE GAME

A practice game for the Thistles Football Club will tomorrow evening at 6.15 o'clock be played at the Hampton Road ground.

Amateur Union Hurls Gauntlet At Canadian Hockey Bosses

Can Forget New Ideals Or Quit Governing Body

A.A.U. of C. Refuses to Even Take Vote on Greater Freedom For Amateurs

Tells Hockeyists To "Clean House"

By ELMER DULMAGE

Toronto, May 6.—The bold and progressive left wing of the Canadian Amateur Hockey Association, creator—or almost creator—of a new amateur definition in Canada, had a choice of retreat routes today. Having taken a stand, the C.A.H.A. may retreat either to left or to right.

It can beat a hasty, sorrowful retreat from its new ideals, abandoning its pursuit of more elbow room and generally greater freedom for the amateur hockey player.

Or it can run up the battle flag and cheerfully withdraw from the Amateur Athletic Union of Canada, losing its right to participate in such events as the Olympic Games and the right to govern Canadian players outside of Canada.

President W. A. Fry of the A.A.U. of C. placed the choice with the hockey body yesterday evening, addressing a letter to Cecil Duncan, Ottawa, C.A.H.A. president, in which he declared the amateur union would not entertain proposals for changing the definition of an amateur.

PROPOSED CHANGES

Duncan and other progressives in the C.A.H.A. succeeded in having passed a resolution altering the amateur code so professionals in other sports could play as amateurs in hockey; players could be paid for time lost from work to play hockey; players could capitalize on their ability as athletes to obtain legitimate employment.

But Fry urged the C.A.H.A. head to discover the real feeling among his own branches before going ahead on the basis of action taken at the C.A.H.A. annual meeting.

That vote, he charged, was "cast only after the strongest kind of steamroller lobby by some of the delegates." If the C.A.H.A. found it had some solid lines to clean, he suggested the C.A.H.A. get busy and do some cleaning.

"Apparently," he told Duncan, "some amateur leaders haven't known their ears to the ground to know there is, all over Canada, a wave of revolt passing through the public mind at failure of controlling bodies to control, and I recommend to you at once follow the advice of your then president, E. A. Gilroy, last November at Halifax when he said, 'If wrong conditions exist, let the hockey branches get in and clean them up, and not let the racketeers, the rink managers and the chiselers run hockey for us.'"

Ottawa, May 6.—Cecil Duncan, Ottawa, president of the Canadian Amateur Hockey Association, yesterday evening declined to comment until he had read the statement of W. A. Fry, president of the Amateur Athletic Union of Canada, regarding the hockey association's new rulings.

"Apparently Fry still adheres to the policy of conducting A.A.U. of C. business through the medium of the press and I prefer to offer no comment until I have had an opportunity of reading his letter," Duncan said.

Edmonton, May 6.—"It seems strange to me that Mr. Fry (President W. A. Fry of the Amateur Athletic Union of Canada) should find it necessary to conduct his correspondence with one of his principal allies through the medium of the press," Dr. W. G. Hardy, Edmonton, first vice-president of the Canadian Amateur Hockey Association, asserted in a statement issued here yesterday evening.

Dr. Hardy gave out the statement after reading a Toronto press report of an announcement by Mr. Fry that he had written to President Cecil Duncan of the C.A.H.A. declaring he had decided not to take the mail vote of A.A.U. of C. branches and allied bodies on the C.A.H.A. four proposals for changing the definition of amateur status.

"Since I am informed by wire," the statement continued, "that the letter which he says he has written to President Duncan has not as yet reached the latter Mr. Fry seems to have forgotten courtesy in a frenzy to rush into print."

Edmonton, May 6.—Full approval of the decision of President W. A. Fry of the Amateur Athletic Union of Canada to cancel proposals for a vote by A.A.U. of C. branches on the Canadian Amateur Hockey Association's stand on "amateurism," was given yesterday evening by the union's secretary, John Leslie, Edmonton.

"No vote could be taken now," Leslie said. "The C.A.H.A. proposals would necessitate a constitutional amendment and that can only be done at an annual meeting. Would a vote now be of any use?"

U.S. WOMEN GOLFERS TIE WITH BRITISH TO RETAIN CURTIS CUP

(Continued From Page 13)

SINGLES

In five of the six singles matches members of the British team were leading at the end of the third hole. Mrs. Crews and Mrs. J. S. Walker were on even terms at that stage.

The singles began with the weather still dull and drizzling.

Wanda Morgan, British champion, and Mrs. Glenna Collett Vare, six times U.S. champion, drew most of the crowd for their tilt.

They halved the first in par drives and the second in sixes. Miss Morgan took the third with a birdie four to go 1 up.

Mrs. Helen Holm, former British champion, also led Patty Berg 1 up after three holes, capturing the first two and dropping the third.

Youthful Pam Barton, London, likewise was 1 up in her match with Charlotte Glutting on the fourth tee. Miss Barton rammed home a thirty-foot putt on the third green for a women's eagle three. They divided the first two holes.

Mrs. Crews held Mrs. J. S. Walker on even terms over the first three holes. She had a woman's eagle on the first and a birdie at the third, winning both holes and halving the second.

Mrs. Marjorie Ross Garon gained a 2 up advantage over Mrs. Opal Hill, starting 5-4 to Mrs. Hill's 6-3.

Mrs. Vare rallied after being 1 down to Wanda Morgan at the third, and went ahead at the eighth where she got par three to Miss Morgan's four. Mrs. Vare led, 1-up at the turn.

The cards: Morgan-Out . . . 554545545-43

Vare-Out . . . 555535555-42

(Mrs. Vare 1 up.)

Mrs. Holm stood 3 up on Patty Berg at the turn, going out with a sparkling 37, two under women's par.

The cards: Berg-Out . . . 554534445-40

Holm-Out . . . 445544444-37

Charlotte Glutting was 1-up over Pam Barton at the turn.

The cards: Glutting-Out . . . 554534445-40

Barton-Out . . . 453744835-41

Mrs. Crews led 2 up over Mrs. J. S. Walker, 1934 Australian champion, with a 37 on the outgoing nine.

The cards: Crews-Out . . . 544534335-37

Walker-Out . . . 554435456-41

(Mrs. Crews 1 up.)

Mrs. Anderson and Miss Cheney reached the tenth tee all square.

The cards: Cheney-Out . . . 455543356-40

Anderson-Out . . . 354644536-40

(Cheney-Anderson even.)

SQUARES MATCH

Miss Morgan squared her match with Mrs. Vare at the tenth where the American captain took three putts.

But Mrs. Vare closed out her rival at the sixteenth hole where she played a spectacular recovery from a bunker, pitching to within three yards of the cup and holding the putt. Miss Morgan missed a nine-foot putt for a half in four.

The cards in—

Vare . . . 554544444

Morgan . . . 355565552

Vare won 3 and 2.

Mrs. Hill trailed Mrs. Garon by four holes at the end of the first nine.

The cards out—

Hill . . . 655645546-46

Garon . . . 554535644-41

Mrs. Garon 4 up.

Mrs. Holm suffered her only serious lapse in the match at the tenth hole where she topped her second shot into a trap and then three-putted to permit the youthful Minneapolis player to win the hole.

The former British champion won the long twelfth with a superb three by holing out from twenty-five feet.

On the fourteenth Mrs. Holm lost a terrific drive that carried 265 yards to the green and needed only two putts for a three and her second birdie in three holes.

The cards in—

Berg . . . 555555555

Holm . . . 633555555

Holm won 4 and 3.

Mrs. Garon ended her match with Mrs. Hill on the thirteenth, the winner 7 and 5.

The cards in—

Garon . . . 544633

Hill . . . 435552

Mrs. Garon won 7 and 5.

Miss Barton was 3 down at the end of the thirteenth hole but won two of the last five with the other three halved to reduce the margin to 1 down.

The cards in—

Glutting . . . 444545456-41-40-81

Barton . . . 544635543-41-41-82

Glutting won 1 up.

Mrs. Crews defeated Mrs. Walker 1 up when the Irish player missed a three-foot putt for a win on the final hole.

The cards in—

Crews . . . 555646366-44-37-81

Walker . . . 434755356-42-41-83

Crews won 1 up.

Start and Finish of Great Kentucky Derby

Two great scenes in the running of the famous Kentucky Derby at Louisville, Kentucky, are shown in the above pictures. At the top, the field of fourteen of the finest thoroughbreds on the continent sprints away to a fast start. Brevity, the outstanding favorite, was bumped to his knees, but dashed on to a brilliant performance and finish second by a neck to Bold Venture. Indian Broom, owned by Major Austin Taylor, Vancouver, ran third six lengths behind the other pair. In the bottom picture the thrilling finish is seen.

OPEN PLAY AT BEACON HILL

Vice-president's Side Captures Lawn Bowling Fixture As Season Starts

Players under the leadership of the vice-president defeated those led by the president in the twenty-seventh opening day's play at the Victoria Lawn Bowling Club on Saturday. The winners took the series by a single point, the final aggregate scores being 167 to 166.

Playing on splendidly conditioned greens, the vice-president's side won seven of the eleven fixtures. Preceding the initial games J. S. Atkins, president, spoke briefly and asked the membership to observe a period of silence in honor of departed members.

MATCH RACE IS POSSIBLE

Tell Plans For Special Event Between Bold Venture and Brevity

New York, May 6.—Amid an increasing argument as to the respective speed of Bold Venture and Brevity, the one-two finishers in last Saturday's Kentucky Derby, Chairman Herbert R. Swope of the New York state racing commission was out today with a suggestion the thoroughbreds clash in a match race.

The idea is that the two speedsters that finished a whisker apart in the Blue Grass Classic be pitted against each other during the Belmont Park spring meeting later this month. Morton Schwartz, who collected the major share of the \$40,000 with Bold Venture's Louisville victory, is said to be agreeable so long as the engagement does not interfere with his horse's engagement in the Belmont stakes. Brevity is also entered in that historic stake.

CHO-SEN WINS CHESTER CUP

Chester, Eng., May 6.—Cho-Sen, a 100 to 7 shot, today won the Chester Cup Stakes, a handicap race over a course of two miles, two furlongs, seventy-seven yards.

Mrs. Ahern's four-year-old finished a neck ahead of Lord Derby's Guiscard. Third was Lady Fitzwilliam's Jesmond Dene, four lengths back.

Guiscard was quoted at 160 to 9 and Jesmond Dene at 10 to 1. Thirteen ran. Styx River was scratched shortly before post time.

Jockey Dines had the mount on Cho-Sen, who carried a light impost of ninety-four pounds. Guiscard carried 119 pounds and

Move Play To Memorial Hall

Plans For "The Wind and the Rain" Changed By Little Theatre Association

After careful consideration, the executive committee of the Little Theatre Association has reluctantly decided that the society's final presentation for the current season, the well-known play "The Wind and the Rain" will be staged at the Memorial Hall on Thursday, May 14, instead of at the Empire Theatre.

In view of the very large number of amateur shows which have recently been presented in the city and the heavy expenses entailed in connection with the rental of a theatre, it has been felt that a large outlay of funds at the present time would not be justified.

The change of venue has come as a considerable disappointment to the cast of enthusiastic young players who have been working hard on the production for the past two months, but with the good of the association at heart they have met the situation like good sportsmen and are all out to equal if not surpass any of the association's previous productions.

Their attitude is much appreciated by the executive and all members and friends of the association are urged to rally to their support.

The play, which is currently running at the Queen's Theatre in London, is being directed by Archie McKordland.

Newton Speaks To Gardeners

Plant Pathologist Tells of England's Work Against Disease

Breaks in tulips, which often result in beautifully mottled or mosaic appearance in the color of the flower, was caused by the insidious virus disease, declared Dr. William Newton, head of the Dominion laboratory of plant pathology, in a lecture before the monthly meeting of the Victoria Horticultural Society in the City Hall yesterday evening.

Dr. Newton related his experiences in England where he was stationed for six months last year and his impressions of British gardening.

Virus, the disease organism, was ultra-microscopic and attempts to view it through the most powerful microscopes had failed.

The building of a hull of a ship at an experimental station in England was described by the doctor. This dry land hull was used to study conditions of fruit in shipment and

Publisher Will Address Meeting

Members of the Victoria Chamber of Commerce have secured as guest speaker to address them at their annual luncheon meeting, to be held on Monday at 12:10 o'clock in Spencer's dining-room, Robert J. Cromie, publisher of The Vancouver Sun.

Mr. Cromie has just completed an extended trip through the countries bordering on the Pacific Ocean, and his subject will be "The Modernization of Asia."

President Harold Husband and the newly-elected directorate will be officially installed in office by Mayor David Leeming.

To insure safe transportation of these products, Dr. Newton congratulated the horticultural society and the Vancouver Island organization on the spring show which took place at the Willows last month. He said that while in England he had had the opportunity to visit a number of flower shows and the show here had compared very favorably with these.

E. M. Whyte moved a vote of thanks to the speaker.

D. D. McTavish, president of the society, said there would be no change in the date of the society's iris show which would take place as scheduled in the A.O.F. Hall on May 30.

The city challenge cup, recently won at the spring show, was on display at the meeting. The secretary, F. E. Boulter said congratulatory letters had been received by him on the display which won the award.

Mrs. Gwen Cash, C.P.R. press representative, addressed the meeting in connection with garden clubs of California and the desire of a number of clubs to visit Victoria this year. The society promised to assist in the entertainment of clubs coming here this summer and in 1937.

Successful competitors in the monthly competition were: Floral—J. A. W. Darius; 2, P. T. Rawlin. Vegetable—1, A. S. Derman; 2, W. R. Nicholls.

New exhibitors—1, Mrs. Winfield; 2, Miss Winnifred Blackett.

Thanks for donations to the city relief office clothing department during April were voiced yesterday by Alderman Ed Williams, chairman of the relief committee. Alderman Williams acknowledged contributions from the following: Hubert Skeets, Louise Roy, Mrs. C. H. Woods, Miss Margaret Lindsay, Miss Turtile, Mrs. Hoffman, Mrs. Saunders, Mrs. Gallop, Mrs. Hark, Miss Dormer, Miss Blackwood, Mrs. Shute, Mrs. Stark, Mrs. Wolfenden, Mr. Bray, Miss Molly Barber-Stark, Mrs. W. F. Hurst, Anonymous, Mrs. J. Davidson, Mrs. Allman, Miss Lightbody, Mrs. R. H. Pooley, Colonel and Mrs. Messiter, Mrs. Cato, Mrs. Critchley, Mrs. Mitchell, Miss Galt, Mr. Barr, Miss Atkinson, Mrs. Stickey, F.H.W.A., Mr. Jardine, Hudson's Bay Co., Mrs. C. M. Roberts, Mrs. Hawthorne, Mrs. Thomas, Friends, and Mrs. Warnock.

NEWS IN BRIEF

Ward One Liberals will hold their monthly meeting at the Liberal rooms on Monday, May 11, at 8 o'clock.

The regular general meeting of the Veterans of France will be held at the clubrooms on Thursday May 6, 1936. A good attendance is requested.

There will be no meeting of Ward Five Liberal Association tonight, but there will be a meeting on May 20, when C. J. McDowell will speak on "Economics."

Provincial police headquarters today reported that Paul Vatin had been arrested at Grand Forks, charged with wilfully damaging a bridge. The charge followed investigation of a bridge fire near Grand Forks.

The death of Jang Kai, Chinese logger killed on Monday while working near Jordan River, will be investigated at a coroner's inquest to be held tomorrow at 11 o'clock at Thomson's Funeral Home.

The regular meeting of the Trades and Labor Council will be held tonight in the Trades Hall at Government and Courtney streets. General matters will be discussed and all members are urged to attend.

E. D. Martin, wholesale druggist of Winnipeg, accompanied by Mrs. Martin and their daughter, is at the Empress Hotel after visiting in southern California. They plan to remain here some time.

The regular monthly meeting of the Victoria Poultry Association will be held on Thursday evening at 8 o'clock in the Y.M.C.A. J. R. Terry, provincial poultry commissioner, will lecture on "Breeding Young Chickens" and those interested are invited to attend.

On Sunday afternoon, in Beacon Hill Park, commencing at 3 o'clock, the Sixteenth Canadian Scottish Band, under Lieut. James M. Miller, will render a programme especially arranged and dedicated to Mother's Day. Popular numbers of days gone by will be featured on the programme.

A 165-foot Douglas fir flagpole has been donated to the city for use at the summit of Beacon Hill Park by Mayo Singh, head of the Kapoor and Mayo Lumber Companies, it was announced yesterday. The pole will arrive this afternoon, or tomorrow, from Kapoor, where it was cut and trimmed by a logging crew.

Tika Barnum Singh, one of seven East Indians involved in the perjury case in the City Police Court, was dismissed this morning. This was the second of seven cases to be heard. Judgment in the first case, that of Meha Singh, has been rendered until next Tuesday, on which day the other cases will also proceed.

Mr. Justice Robertson of the Supreme Court in a judgment today ruled that H. Humber should pay \$13,750 of the divorce trial costs of Mrs. Humber. Mrs. Humber brought the action, but her charge was dismissed by Mr. Justice Robertson at the trial, with the judgment delivered in favor of Mr. Humber.

Mrs. M. E. Herburger, 1905 Chambers Street, suffered a fractured leg when she was thrown to the road while cycling along Cedar Hill Road about 10 o'clock yesterday evening, according to a city police report. The chain of her machine broke, causing the bicycle to swerve out of control. The report said Dr. D. W. Graham was called and attended her in the Jubilee Hospital.

Ella Williams, 850 Yates Street, who has been in Victoria for the last thirty-five years and has decided to make this her permanent home, has applied to the courts here for Canadian citizenship. She was born in Elmira, N.Y., and came to Victoria from San Francisco. She has been set down to come before Judge Lampman on July 24 for public hearing on her application.

A well-attended card party was held yesterday evening by the Victoria West Liberal Social Club in its clubrooms, Skinner Street. Twelve tables of progressive five hundred were in play. The following won prizes: Ladies' first, W. H. Tooby; ladies' second, Mrs. C. Chealy; gentlemen's first, H. Pearce; ten-bid prizes were won by Mrs. T. Crossman, R. Brimmer, Mrs. E. Carlow, E. Carlow, G. Brown. The aggregate prizes for the month were won by Mrs. W. Aldred, T. Crossman and T. Salveson. Refreshments were served by the committee.

Robert Godfrey, seventeen, of 837 Cormorant Street, and four-year-old Donald Jealous were injured in an accident at Fernwood Road and Gladstone Avenue yesterday evening, according to a city police report. Ernest Jealous, Shelbourne Street, was driving south on Fernwood Road, accompanied by his daughter, Godfrey was cycling east on Gladstone Avenue and was in collision with the car at the intersection. He suffered a broken arm and injuries to his head. The little girl was cut over the eye by flying glass. They were both taken to the Jubilee Hospital, where Dr. T. W. A. Gray attended the boy and Dr. J. Stewart the girl.

St. Saviour's young people, with members of the Victoria and District Local Council of the A.Y.P.A. and branch representatives, gathered yesterday evening at St. Saviour's Hall for a social. Jack Aylin acted as master of ceremonies, and games and contests were enjoyed, novel prizes being awarded. Supper was served by Mrs. H. W. Hughes and Miss Enid Hughes, after which Ernest Gray, president of the Victoria Council, spoke on the aims and objects of the Anglican Young People's Association. The vice-president, Ralph Freshly, invited the young people to attend branch meetings. It was announced that St. Andrew's branch, Sidney, would hold its first dance in Stacey's Hall on Friday, May 8, at 8 p.m. This will take the form of a mystery night.

ELEVATOR TO REMAIN IDLE

Local Plant Not Needed Owing to Present State of Market, Says R. D. Purdy

Releasing of the Ogden Point elevator is not at present contemplated by the Alberta Wheat Pool, stated R. D. Purdy of Calgary, when questioned at the Empress Hotel today.

The Alberta Pool formerly held a lease on the local plant. The pool's general manager arrived here today with J. Bennett, superintendent at Vancouver. They plan to go up-land as far as Nanaimo tomorrow.

In the event of a normal crop the probability is that someone might be able to use the Victoria elevator, but in view of the present state of the wheat market there was no need for storage here, said Mr. Purdy.

Wheat has been moving fairly steady to the coast for export to the United Kingdom since the beginning of the year with the expectation of continuing the grain export operation.

He was not disposed to discuss the proposal that Canadian wheat be shipped to England for storage in elevators there to be available when needed, other than to observe that the farmers generally were not in favor of the idea.

AUSTRIA WINS SOCCER MATCH

Defeats England 2 to 1 in International Game at Vienna

Vienna, May 6.—Austria today defeated England 2 to 1 in an international soccer match played here. At half-time Austria led 2 to 0 and in the final forty-five minutes the Englishmen applied the pressure but could only score one goal.

Sixty thousand enthusiasts were on hand and before the teams lined up Vice-Chancellor Prince von Starhemberg introduced the players to President Miklas.

The strong English eleven wilted in the opening minutes, unable to stem the speedy Austrian rushes. After eleven minutes Vierti put the home side ahead and six minutes later Geller made the count 2 to 0.

Two goals down, England went on the offensive and bombarded the Austrian goal, but they could not score until the fifty-fourth minute when Cammell, Middlesbrough centre-forward, netted.

AERIAL ACT FOR CIRCUS

"Y" Circus Committee Engages Professional Artists

Chairman E. O. Rowbottom, head of the Y.M.C.A. circus committee, announced the committee had finally signed a contract for an outstanding aerial trapeze team to headline the programme for the Y circus which will be held in the horseshow building at the Willows on May 15 and 16.

The team is billed as "The Aerial Patis, Vera and Frank, the Fastest, Most Daring and Most Thrilling Trapeze Artists in Existence."

For the first time since the Y.M.C.A. circus became an annual event, an outside act has been engaged for the programme. The Aerial Patis perform high in the air and close their act with a flying breakaway.

Plans are almost complete to bring across a five-man team from the mainland who have an international handbalancing reputation. Other local acts are rehearsing conscientiously, naturally anxious to do their best in competition with the professionals on the programme, and a fine show is expected.

The refreshment end of the show is not being neglected, and Hi-Y Club will handle this end of the business, and will provide all things necessary to promote a circus atmosphere.

CAR HITS WOMAN ON CITY SIDEWALK

Miss Peggy McDonald, Denman Street, suffered an injured leg when she was struck by a car on the Douglas Street sidewalk shortly before noon today.

The car was driven by Mrs. H. N. Sheepwash of Duncan, who was driving south on Douglas Street and pulled into the west curb, near View Street, to park. As the car kept on going, traveling across the sidewalk and striking the stone entrance to the Woolworth Building.

Miss McDonald was walking along the sidewalk and was struck by the machine as it careened towards the building.

Obituary

MINNIE PARTRIDGE
Funeral services for the late Miss Minnie Partridge, pioneer resident who passed away yesterday morning, will be held tomorrow afternoon at 2:30 o'clock at McCall Bros. Funeral Home. Rev. A. deB. Owen will officiate and interment will be made in the family plot in Ross Bay Cemetery.

CATHERINE JANE SEALE
Funeral services for Mrs. Catherine Jane Seale, who passed away yesterday at her home, 1315 Fernwood Road, will be held from Thomson's Funeral Home tomorrow afternoon at 2:30 o'clock. Interment will be in Colwood Rural Park. The late Mrs. Seale had been resident of Victoria for the past eighteen years and leaves to mourn her loss two daughters, Mrs. J. A. Greenidge, residing at 1158 Empress Avenue, and Miss Gertrude Seale, at home, and two grandchildren.

MARY JANE DAVEY
The death occurred this morning of Mary (Mollie) Jane Davey, 934 Mason Street. Miss Davey was born in Bruce County, Ontario, in 1858, and came to Victoria at the age of twelve years. She is survived by one niece, Mrs. A. McConnell, of San Diego, California. She was a charter member of Queen City Chapter No. 3, O.E.S., and was also a member of St. John's Church.

The remains are resting at the St. Mary's Chapel and the funeral announcement will be made later.

ADOLPHUS CHARLES SMITH
Funeral services for Adolphus Charles Smith, of 918, McCall Street, whose death occurred in the Royal Jubilee Hospital on Monday, will be held at Hayward's B.C. Funeral Chapel tomorrow afternoon at 2 o'clock. Rev. W. R. Brown will officiate and interment will be in Ross Bay Cemetery.

The late Mr. McCall Smith was born in Queen's County, Ireland, and came to Canada twenty-one years ago, and for the last nineteen years had been living in Victoria. He is survived by his widow and two sons, Peter and Gerald, in Victoria, and one brother, James, in Guernsey, Channel Islands.

LAST RITES FOR CHIEF DAVID

Many Attend Centenarian's Funeral Today; Priest's Tribute

The funeral of the late David Joseph Lates (Chief David), who passed away at Brentwood last Saturday, took place this morning in the Assumption Church.

Rev. Father E. M. Scheel and Rev. Father William Lemmens celebrated Requiem High Mass.

There was an unusually large gathering of relatives and friends present, including representatives of many different organizations.

The active pallbearers were: Philip Tom, Isaac Bartleman, Gabriel Bartman, William Morris, Lawrence Paul and Christopher Paul. The honorary pallbearers were: A. Thompson, L. Hagan, S. Verdier, J. Brooks, W. Butler and R. C. Nimmo. The remains were laid to rest in the West Saanich Catholic Cemetery.

High tribute was paid to the memory of the departed by the Rev. Father Lemmens, who spoke of the upright life of the late chief. The numerous beautiful floral tributes bestowed the high esteem in which the deceased was held by his friends.

Lumber Workers Win Back Pay

Union Gets \$65,000 Award For 200 Men From Labor Board

Seattle, May 6.—A decision involving "about \$65,000" in back wage payments, and favoring the Lumber and Sawmill Workers' Local 2811, in a dispute with the Carlisle Lumber Company of Onalaska, was announced today by Charles W. Hope, director of the Regional Labor Board in Seattle.

Harry Hazel, trial examiner for the board, made the decision.

The company is instructed to pay back wages to dismissed workers from last August 5 to the date of the offer of reinstatement of a job. About 200 men and about \$65,000 in back wages are involved, according to Hope.

The lumber company, Hope said, must bargain with the union and must offer jobs to all members of the union who went on strike when the company refused to recognize them for collective bargaining purposes.

The lumber company was given until Wednesday, May 13, to show how it had complied with Hope's rulings.

MUST SHOW RESULTS
The lumber company recently was denied an injunction restraining the Regional Labor Board from hearing the dispute, Federal Judge E. E. Cushman's decision was upheld by the Circuit Court of Appeals at San Francisco.

In the event of the company's refusal to comply with the decision, Hope explained the case will be referred to the National Labor Relations Board at Washington, D.C. Hope also explained that the amount of wages which workers might have obtained from other jobs since August should be deducted from payments to them by the company.

CHORAL UNION HAS ELECTION

Viscount Colville Is Named President; Need of Auditorium Stressed

Viscount Colville of Culross was last night unanimously elected president of the Victoria Choral Union. The appointment, made at the annual meeting of the union in the Memorial Hall, marks the organization's appreciation of his support since its formation in February of last year.

Herbert Kent, the retiring president, declined to stand for re-election and was chosen publicity representative.

W. H. V. Davies was re-elected secretary-treasurer, and A. S. Miller and Miss Louise M. Noble registrars. Captain Wilfred Ord conducted Lloyd Jones as librarian, Mr. Jones having requested permission to retire. Mrs. A. V. Price, G. F. Booth and Mrs. H. A. Beckwith were appointed to the executive committee.

TRIBUTE TO CONDUCTOR
In presenting his presidential report, Kent referred to the fine work of Stanley F. Bulley, conductor of the union, and of the accompanist, Richard S. Eaton.

Thanks were tendered to George Phillips, honorary secretary of the Cathedral recitals committee, for his work in connection with the two performances of Handel's "The Messiah" and the Easter presentation of Brahms' "Requiem." The performances were all three successful, it was added.

Mr. Bulley spoke of the close cooperation he had received. During the coming year he felt it was his duty to bring music lovers together and to teach Victorians the art of listening and discrimination.

Of the choir, he said: Given time and experience, they could sing anything. He praised them for their work in the three performances. He believed the male section needed strengthening.

An increase in the annual fee from \$1 to \$2 was voted at the meeting.

AUDITORIUM NEEDED
The need of an auditorium in Victoria sufficiently large to accommodate the union and its orchestra and a good audience was stressed by several members. Mr. Bulley added that such a hall would have to be well heated and ventilated, and have to have good acoustics.

The union will back any move to obtain such an auditorium for the city.

Press Views On League's Future

British Papers See Geneva Body at Crossroads as Italy Seizes Ethiopia

Canadian Press From Hava
London, May 6.—The war in Ethiopia and the future of the League of Nations provided prime topics in British editorial comment yesterday and today.

The London News-Chronicle, Liberal, said: "All the League of Nations must share the blame for the cowardice leading to such a disaster. The determination of the Italian dictator won an easy victory over the spineless hesitation of the covenant powers. British prestige is in the dust."

"Any action now resulting in a relaxation of League pressure on Signor Mussolini before he agrees that the responsibility for determining the future of Abyssinia is still with the League of Nations will mean the end of the League as an effective instrument. If the nations acquiesce in this final degradation Europe may prepare for the worst."

But, the News-Chronicle added: "If the British and French democracies will co-operate in putting collective security really first, the future can still be full of hope."

EARNED RESPECT
The Daily Mail yesterday confined itself to expressions of sympathy for the Emperor of Ethiopia. He is "sure of respect, all admiring his courage and steadfast devotion to duty," it said.

CANCEL OUT
The London Times stigmatized as "most unjust" the disposition to condemn the British government for "the deplorable situation in Abyssinia."

"On the one hand," said the Times, "the government is condemned for having failed to go to war singlehanded against Italy; on the other for having played too prominent a part in an endeavor to make collective League action a reality. These two charges obviously cancel each other out."

"It is easy to be wise after the event," The Times editorial continued, "and there is some answer to this criticism in a foreign policy which has gone to the utmost length in confidence that other nations would stand by their word. The immediate British policy which must be pressed is a new effort to make British influence effective in the League, meanwhile working to the utmost to bring back those nations which are outside the League, especially Germany."

NEW SECURITY PACE
The London Daily Herald, Labor, proposed reform of the League of Nations by formation of "a European security pact based on reciprocal military guarantees."

"So far as it is possible to gather here, the British government does not have any view of any kind on the situation created by the Abyssinian tragedy. There appears to be no official policy at all."

AN ACCORDION DE LUXE

—See It!

A superb Hohner Piano-acordion; 120 bass and 31 treble keys. Has Automatic treble Cupper; five sets of reeds; new duralumin bass mechanism makes it lightning fast and very quiet in operation. Flush-lined, form-fitting case. See this de luxe model in our window today.

LETTER REACHED UNUSUAL ADDRESS

Vancouver, May 6 (Canadian Press).—Post office officials here today claimed a high standard of service with the delivery of a letter addressed to "The Head of the Grahams of Killeen, Cadets of the House of Monrovia, Vancouver."

Post office authorities were puzzled as to the identity of the addressee and advertised in a Vancouver newspaper.

Mrs. Walter Graham, widow of Dr. Walter Graham, claimed the letter.

prepared to place force behind the covenant when they hand the world over to a bully and a murderer."

CLEARING UP OF MESS
The London Daily Express, Lord Beaverbrook's newspaper, thinks that with the Left winning the French elections, the idea of tightening sanctions against Italy might receive encouragement from France. "It should be stamped on here," The Express adds, "Nobody in Britain likes this war. The only thing remaining is to clear up the mess."

GRAVEL PLANT SOLD BY SHERIFF

Twenty persons interested in gravel pits gathered at the gravel plant of the Pioneer Sand and Gravel Company, at Royal Bay for Sheriff Goggin's sale under a Supreme Court order in favor of Oswald Henry Dorman on a claim of \$6,092.

When a deputy sheriff called from his auction block for bids on the plant and equipment, the first bid was \$300. Seven or eight bids followed, bringing the price up to \$600. At that price it was knocked down to P. J. Sinnott, counsel for Mr. Dorman.

It was explained that the gravel property itself and the company's stock seized from individuals under court order were not included in this sale.

Swiss Send Nazi To Jail

Associated Press
Basel, Switzerland, May 6.—Dr. Hans Wesemann of Germany was sentenced to three years' imprisonment today for kidnapping Berthold Jacob, anti-Nazi journalist, from Switzerland in March, 1935.

MAN SENTENCED TO FOUR YEARS

Canadian Press
Vancouver, May 6.—Reginald Burbank today pleaded guilty before Judge A. M. Harper in County Court to a charge of conspiring to defraud James Campbell, retired railway employee of Stratford, Ont., of \$7,380, and was sentenced to four years' imprisonment.

Charged under the name of A. B. Brisbane, he and J. Howard pleaded not guilty to a joint charge of conspiring to defraud G. S. M. Larder, and were remanded till May 27.

Announcements

DIED

PARTRIDGE—On Tuesday, May 5, at her home, 464 Garfield Road, Mrs. Minnie Partridge, aged seventy-five years, died at 10:30 a.m. after a long illness. Burial in the Victoria Memorial Park cemetery.

SEALE—Passed away at an early hour on Tuesday, May 5, at her residence, 1315 Fernside, Mrs. Catherine Seale, nee Mrs. Seale, aged seventy-five years. Burial in the Victoria Memorial Park cemetery.

ATKINSON—On Sunday, May 3, at the family residence, 125 Lady Smith Street, Mrs. M. J. Atkinson, nee Mrs. Atkinson, aged seventy-five years. Burial in the Victoria Memorial Park cemetery.

SMITH—At the Royal Jubilee Hospital on May 4, Adolphus Charles Smith, aged sixty years, died at 10:30 a.m. after a long illness. Burial in the Victoria Memorial Park cemetery.

DAVEY—On May 5, the death occurred of Mary (Mollie) Jane Davey, late residence, 534 Mason Street, Victoria, who was born in Bruce County, Ontario, in 1858. She was the wife of John Davey, who died in 1928. She was survived by one son, John R. Davey, who is a member of the Victoria Chapter No. 1 of the B.C. Masonic Lodge.

CARD OF THANKS
Mrs. Robert J. Hartley and son wish to express their heartfelt thanks to all those who were so kind to Mr. Hartley during his illness in the hospital; to the doctors, the sisters and nurses of St. Joseph's Hospital who so tenderly cared for his services; and to those who kindly sent flowers during his recent and bereavement.

TENDERS FOR COAL

Sealed tenders addressed to the under-
signed and endorsed "Tender for Coal,"
will be received until 12 o'clock noon
(daylight saving), Wednesday, May 7,
1936, for the supply of coal for the
Dominion Buildings and Experimental
Farm and Stations, throughout the
Provinces of Manitoba, Saskatchewan,
Alberta and British Columbia.

Conditions of tender with specifications and
forms attached can be obtained from the
Purchasing Agent, Department of
Public Works, Ottawa; the District Resi-
dent Architect, Winnipeg, Man.; the Dis-
trict Resident Architect, Regina, Sask.; the
District Resident Architect, Calgary, Alta.;
and the District Resident Architect, Victo-
ria, B.C.

Tenders will not be considered unless
made on the forms supplied by the Depart-
ment and in accordance with departmental
specifications and conditions.

The right to demand from the successful
tenderer a deposit, not exceeding 10 per
cent of the amount of the tender, to secure
the proper fulfillment of the contract, is
reserved.

By order,

J. M. SOMERVILLE, Secretary,

Department of Public Works,

Ottawa, April 29, 1936.

RIDERS WILL STAGE SHOW

Motorcycle Club Will Stage

Show During Victoria Day

Celebration at Willows

Ability of Victoria's motor-
cycle riders will be given a thor-
ough test on Monday, May 25,
when the Victoria Motorcycle
Club stages a programme of
events in conjunction with the
Victoria Day celebrations at the
Willows Exhibition grounds.

This will be just one of the many
events to be staged at the Will-
ows during the day.

The feature of the motorcycle
performances will be the race over
a course that will be a miniature of
the famed T-T course on the Isle of
Man. Ten machines will take part
in the event and onlookers are guar-
anteed plenty of thrills as riders
take the hairpin curves at top speed
and endeavor to surmount the other
difficulties of the course.

Cecil Frampton, president of the
club, stressed that speed was not the
main factor in the race as much as
the ability to manipulate machines,
over the approximate two and one-
half mile course, owing to the many
hazards that will take skill rather
than gas. The club will construct the
course.

Another feature attraction on the
club's programme will be a motor-
cycle polo game between owners of
Indian and Harley machines. A foot-
ball is used and the ball is kicked.
Last year the Harley team won over
the Indians.

There will also be solo stunting by
members of the club. The boys are
at present trying to accomplish stunts
originated by the famous Patti Mc-
Mahon, Hollywood screen star stunter.
He was seen going through some of
his precarious stunts in the movies
here last week. Sidecar stunts, for-
mation riding and other events will
round out the card.

On Sunday, May 3, starting at 1.30
o'clock, the club will stage a series
of sprint races at Island View Beach
at Keating. There will be classes for
various types of machines. An excep-
tionally low tide is forecast and speeds
up to eighty miles an hour will be
possible. The ability of the rider to
get his machine to top speed in the
short distance allowed will be the
trick to the sprint.

Frank Baylis, Frank Thomas,
Charlie Davies and Bill Epley, well-
known as capable bike handlers, will
be the local representation to com-
pete in the Greater Vancouver Motor-
cycle Club hillclimb on May 25 in
the vicinity of Vancouver. This will
be the first hillclimb of 1936 in the
Pacific northwest. Louis Kaelin, who
last year carried away the Vancouver
Island championship in the hill-
climb put on by the local club, will
also be present as well as riders from
as far south as Oregon. Although the
local contingent is small they are able
handlers and should bring back some
of the honors.

Victoria Bowlers

Off to Congress

To take part in the annual Pacific
Northwest International Bowling
Congress at Spokane a team of Victo-
ria tenpin bowlers left the city
this morning. The squad, to play
under the name of the Bluebirds,
follows: J. Ferguson, Bill Norris,
Jack Leatham, H. Paulding, Ron Wil-
son and Jack Howell.

The five-man team will get into
action on Thursday with the doubles
and singles scheduled for Friday
morning. A local women's tenpin
squad is also traveling south for the
event.

The qualifying rounds in the A and
B women's club competitions were
played yesterday at the Uplands Golf
course. Miss Mary Mackenzie-Grieve
was medalist in A class with a card
of 90. Mrs. H. G. Mackenzie was
medalist in the B class competition
with a score of 95.

Matches will be played today and
tomorrow and the finals will take
place Friday. A stiff game followed
the golfers yesterday.

Dorothy Dix

What Causes Family Quarrels? Declares That Money Is Root of Most Evil

THERE ARE TEN principal reasons why husbands and wives quarrel, even when they love each other. Look over the list and see if they fit you. They are:

First. Because husbands are men and wives are women. They belong to different sexes and hence have different habits, different tastes, different points of view on every subject. It is the peculiar little ways, because they are not their ways, of the men and women to whom they are married that get on husbands' and wives' nerves and precipitate fights.

Second. Because they are poor pickers. They have selected those with whom they have nothing in common. Their mates instead of choosing their doubles. The rubber stamp is the symbol of felicity in marriage. Practically all family rows start over the husband wanting to do one thing and the wife something else, but the dove of peace broods over those households where a married couple are twin souls with but a single thought. Particularly if it is the wife who has that thought.

Third. Because husbands still belong to the Adamic school of marriage, while wives have gone modern. The average man still believes that a wife should be treated as his grandfather treated his grandmother, and that she should be a subservient creature who should ask her lord and master's permission to go downtown or visit her mother. He believes that the husband should carry the purse and dole out nickels to his wife, and that she should find all the amusement and diversion she craves in scrubbing and cooking and waiting for hubby to come home at night. And when husband tries to apply these theories to a wife who has been a business woman and had her own latchkey, and pay envelope, the fur flies.

Fourth. Because neither husband or wife take the trouble to handle the other with gloves. Every husband and wife know exactly how to manage the other without friction, but apparently they prefer a run-in to gumshoeing around each other's little pet prejudices and idiosyncrasies. They disdain the use of all tact in dealing with each other and provoke arguments that are as good for a scurrilous as a nickel is for a ginger cake.

Fifth. Because both want to boss. The struggle for the domestic throne is a forty-year civil war in most families that ends only when one of the contestants is laid in the grave.

Sixth. Because no husband is ever really prepared for the shock of finding out that marriage is one of the most expensive propositions a man can go into, and that setting up a family costs as much as setting up a yacht. Men are sold on the idea that a wife is a magic wand and materializes a comfortable home and good food out of the air. Hence, when they find that matrimony is mostly bills, they say things that make their wives wish they had stayed single. The first of the month is the day hostilities begin in most families.

Seventh. Because wives feel it their sacred duty to make over their husbands as soon as they get them and change all of their tastes and ways. Mighty few married men are ever permitted to keep their old friends, or indulge in any of the amusements to which they were accustomed, or eat the kind of cooking they like after they are married. There are plenty of women who spoil perfectly good marriages and drive their husbands away to other women by never letting them smoke in peace, or sit around in the evening in old slippers.

Eighth. Because wives make the mistake of thinking that marriage is a job that they can't lose and so they don't have to give satisfaction and make good on it. They won't get up and punch the time clock and get their husbands a good breakfast in the morning. They are sloppy in appearance and slovenly in their work, and when their husbands try to jock them up and make them earn the money they are getting, they hand them a line of backbit that would get them fired by any employer in the world. If women would only yank their husbands as hard as they used to do their bosses in business, there would be mighty few divorces.

Ninth. Because women are constitutionally unable to look a fact in the face and accept it for what it is. They always think they can change it into what they want it to be. A wife doesn't say to herself: "John is a dumb lover, but a good provider." She nags the poor unromantic soul to death because he isn't Clark Gable. She doesn't get her fill of cards and parties and receptions in the afternoon if she is married to a man who doesn't like to step out. She raises ructions with him every night because he won't put on his dress clothes and take her to a night club. Hence these tears.

Tenth. Because men are so stupid that they don't know that they can kiss a wife's eyes and lips until she will be as blind as a bat and dumb as an oyster. Or perhaps they do know and just enjoy their daily rape with their Marias.

DOROTHY DIX.

Uncle Wiggly and the Sparrows

By HOWARD E. GARIS

It was on a quiet, sunny morning when it seemed that Uncle Wiggly wouldn't have any more adventures in his life. It all started in a very calm way.

Mrs. Longears was still resting when Uncle Wiggly finished his breakfast and started out the door of the hollow stump bungalow. Nurse Jane called to him: "Tell me all about it when you come back!"

"The adventure, of course! Aren't you going looking for one?"

"I certainly am not!" Wiggly said loudly. "This is a no-adventure day. I'm going to take a walk and whistle and maybe sing a little song, but as for adventures—no ma'am! If I see one I'll run the other way, that's what!"

NOT FOR A BARREL OF CARBONS

"Yes, you will," chuckled the mustered lady, meaning that Uncle Wiggly wouldn't run away from an adventure if someone offered him a barrel of carbons with extra special sauce. "But hop along and have a good time. I'll hear all about it later!"

So the rabbit gentleman hopped through the woods, feeling the warm sun on his back and thinking how pleasant it was to be just about to jump around when he heard two voices twittering excitedly.

"I'll carry one of the little voices exclaimed. 'I'll take it to my nest and fly with it to the nest and then if it gets chilly tonight we'll use it as a heater.'"

"Fine!" the other voice twittered. "Oh, my goodness, my gracious, won't mother and daddy be surprised to come out!"

"Hurry!" Uncle Wiggly called, for he recognized the voices of two sparrow children who sometimes got into trouble, although not meaning to. "What are you going—"

But he was not quick enough, for at that moment came a whirling of wings and the birds took flight, one of them carrying in his beak a lighted cigarette a careless man had dropped in the woods.

"Oh, dear!" the rabbit cried, "I've got to stop them!"

He knew he couldn't hop as fast as the birds, but he had to reach the barn somehow, and quickly, too. He could see the sparrow boy and girl in the clearing in the trees and shouted to them: "Dickie and Nellie! Stop! Don't take that cigarette to your nest! It's dangerous! Wait—"

COULDN'T HEAR HIM

But it was no use. The birds couldn't hear him. Uncle Wiggly hopped and sighed: "I'll never get to the barn in time! The man who dropped the hat in the woods before putting it out should be arrested, that's what! But as one knows who did it—and what am I going to do about saving the barn where the sparrows live? It's half a mile away!"

He was getting more and more worried. Dickie and Nellie were in carrying the cigarette to the nest. Mr. Longears knew, because they thought foolishly, of course—that it would keep the birds warm the nest at night. But Uncle Wiggly knew, also, that lighted cigarettes and matches were things that children should never touch. "What," he cried again, "am I going to do?"

"You're not going to do anything, but I am!" a mean voice suddenly cried, and there was the bad-tempered Wessell. "Now I've got you!"

"Listen, Mr. Wessell! Uncle Wiggly said
